Bush Baby Stealth Bottle Camera Manual
SKU: BBSBottle

USER MANUAL
FCC CE

Version 2.1
THANK YOU FOR PURCHASING THE BUSH BABY STEALTH BOTTLE CAMERA

Please read this manual before operating the device and keep it handy. Separate areas contain water on the top and bottom to give the impression of a full bottle. We advise that you NOT use this like a normal bottle of water by repeatedly drinking from it, as this increases the chance of water leakage/damage.

Your purchase should include:
1 x BushBaby Stealth Bottle Camera
1 x Remote Control
1 x Charging Adapter with Indicator Lights
1 x MicroUSB Cable
1 x Removable Battery
1 x Wall AC Adapter
1 x MicroSD Card Reader
1 x 16GB MicroSD Card
1 x User Manual

Contact 770-694-6923 if you are missing any of these components.

MicroSD Card Slot

Removable Battery

Battery Connector
**BEFORE YOU START**

To preserve battery power, your bottle will come with the battery connector **disconnected**. Before attempting to use the device, be sure to connect the battery’s connector to the circuit board power lead.

*Note: If you are not located in the US, or if you intend to use this product anywhere other than the US, you will need to purchase a converter in order to use the AC wall plug in and avoid damaging the product. Because different countries use different voltages in their electrical wiring, you will need a converter that adapts to the current in your particular country.*

**IMPORTANT WARRANTY INFORMATION:** If the warranty sticker on your device has been removed or tampered with, your lifetime warranty will be
voided. You may be charged fees or denied a return should this happen.

OPERATING THE BUSHBABY STEALTH BOTTLE CAMERA

IMPORTANT NOTICE: Allow the device to charge 6 – 8 hours before using.

REMOVING AND CHARGING THE BATTERY
1. Remove battery from the bottle (see pages 3 and 4).
2. Disconnect the battery connector that is connecting the battery to the circuit board (see page 4). Be careful not to pull on the wires as that could damage them.
3. Connect the connector on the battery to the connector on the charging adapter (see page 6).
4. Plug the provided USB cable into the other end of the charging adapter.
5. Plug the other end of the USB cable into the wall AC adapter and plug it into the wall.
6. Wait 6 to 8 hours.
   a. The larger the battery capacity, the longer it takes to charge.

HOW TO TURN ON THE BUSHBABY STEALTH BOTTLE CAMERA
1. Press the Power Button on the remote control one time (see page 5). Your device is on when you see an indicator light inside of the water bottle. The device is now in Standby mode.

HOW TO RECORD VIDEO ON THE BUSHBABY STEALTH BOTTLE CAMERA
1. In standby mode, press the Video button on the remote control one time (see page 5). The indicator light inside of the device will flash three times and then turn off.
a. Videos will be recorded continuously and saved in 20 minute intervals.

HOW TO SET UP MOTION DETECTION

1. In Standby mode, press the Motion Detection button one time (see page 5). The indicator light will flash three times, and then turn off.

2. The unit is now in motion detection mode and will begin recording video once motion is detected. There will be no LED indicator to indicate when motion is detected.

HOW TO STOP RECORDING

1. To stop recording, you will need to press the same button you used to begin recording.
   a. If you pressed the Video button, press the Video button once more.
b. If you pressed the Motion button, press the Motion button once more.

2. The device will reenter Standby mode (solid light).

HOW TO TAKE A PICTURE

1. While in Standby mode, press the Picture Button one time (see page 5). When the indicator light flashes one time, 1 picture will be taken accordingly.

2. The device returns to Standby mode once 1 picture has been taken.

MICROSD CARD SLOT

To access the MicroSD Card Slot, you must unscrew the bottle right above the label.

1. Gently push the MicroSD Card into the slot (see page 4). The gold contacts on the card will be inserted first, and they should face the main circuit board. You will feel some
spring resistance before the card clicks in to place.

2. **Never** force the card into the Card Slot under any circumstance. Otherwise the Bottle unit or the MicroSD card itself will be damaged.

3. To remove the SD card, gently push the card in so that it clicks.

4. The internal spring tension will eject the card.

**MicroSD cards 65GB and above will require special formatting to work.** The device will not function with these cards if they are not properly formatted beforehand.

Visit [www.mgidownloads.com/Software](http://www.mgidownloads.com/Software) and download the “**guiformat.zip**” file. Extract the files and follow the instructions in the “64GB SD Card Formatting.pdf” document.
IMPORTANT NOTICE: Ensure that the bottle is off before inserting the MicroSD card. Otherwise, potential corruption of the card file(s) may occur.

RETRIEVE THE FILES TO YOUR PC

1. Connect the MicroSD card to your computer using the MicroSD card reader. See page 4 to locate the MicroSD card slot on your device.
2. Locate “Removable Disk” inside the (My) Computer folder.
   • AutoPlay Removable Disk > Open folder to view files
Or...

1. Go to Start > Computer > Removable Disk
3. Open the Removable Disk drive.
4. Open the DCIM folder.
5. Open the folder featuring a sequence of numbers.
6. Double click the file you want to view.

- VLC Player is recommended for watching videos.

If you are having video playback issues such as a completely black video recording or “squiggly lines”, we recommend you use VLC media player to play back the videos. It can be downloaded for free from www.videolan.org

COPYING AND DELETING YOUR FILES
The video files created are just like any other file on your computer, and can be managed in the exact same manner.

- To save a file, you would want to select the file, right click your mouse on the file name, and then choose “Copy” from the menu.
Next, go the location you want the save the file to. Right click your mouse, and then chose “Paste.” This will copy the file to your computer.

- To delete a file, right click your mouse on the file name and choose “Delete” from the menu. You can quickly select all of the files by pressing “CTRL+A” on your keyboard.
- If you are using MAC OS X, you must empty the trashcan after you delete a file. If this is not done, the SD card will fill with hidden files and the Bottle will no longer record new files.

**SETTING THE TIME AND DATE ON THE VIDEO FILES**

You will need to remove the MicroSD card from your device and insert it into your computer via the SD card reader.

1. Visit [http://time.mgiddownloads.com](http://time.mgiddownloads.com)
2. Choose “All Bush Baby Stealth”, and your time zone in the dropdowns and click download.

3. Go to your download’s folder. Right click and “cut” the downloaded time file.

4. Locate “Removable Disk” inside the (My) Computer folder.
   a. Go to Start > Computer > Removable Disk

5. Open the Removable Disk drive.

6. Right click with your mouse and paste the downloaded time file.
Alternatively, if you cannot get the above method to work, do the following:

7. Right click anywhere in the blank white space.
8. Scroll down to “New”.
9. Click “Text Document”.
    *The title must be in all lowercase letters!*

Before Step 8
After Step 8

11. Open the text document.
12. Enter the date/time in the following format:
   a. Example:
      2016/08/08 15:00:00
13. Save the text document.
14. Unplug the MicroSD card from your computer and reinsert it into your device.

**Power on the device and begin a test recording to confirm date/time setting succeeded.**
TROUBLESHOOTING

THE DEVICE WON’T TURN ON

• Charge the device for at least 6-8 hours before the first use.
• Make all charging cables are securely connected when charging.
• If the remote is not responding, try flipping the internal on/off switch.
THE DEVICE ISN’T CHARGING
• Replace the battery or charging cable.
• If you are charging via a wall power source, you may need to charge via your PC.

MY COMPUTER DOESN’T RECOGNIZE THE DEVICE
• Try using a different USB slot on your PC.
