

Weyland-Yutani 2023-2024 Assembly Guide (Updated for 10th Edition)

Weyland-Yutani 2023-2024 Assembly Guide

* Thank you for choosing WY Terrain!

* Each page of the following assembly guide show,

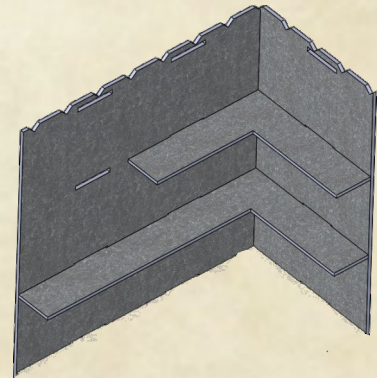

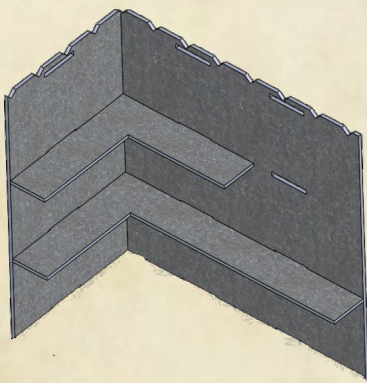

-Initial pieces needed for the terrain piece

-Step by Step assembly from top to bottom.

-Final Product

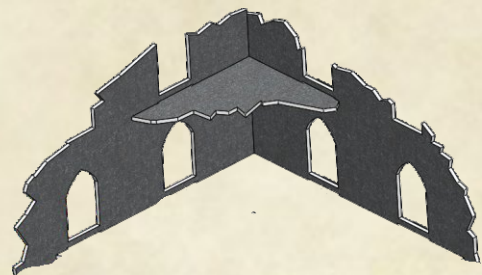

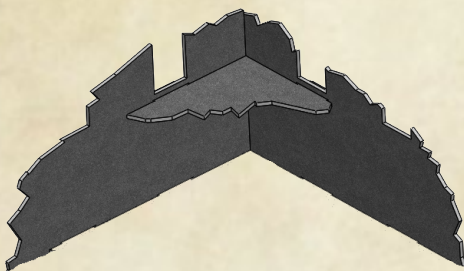

* When assembling, we recommend not using glue,

-That way you can assemble your ruins in both clockwise and counter-clockwise, and then change the orientation whenever you want.
WTC terrain is L shaped for larger, Reverse-L shaped for smaller ruins.

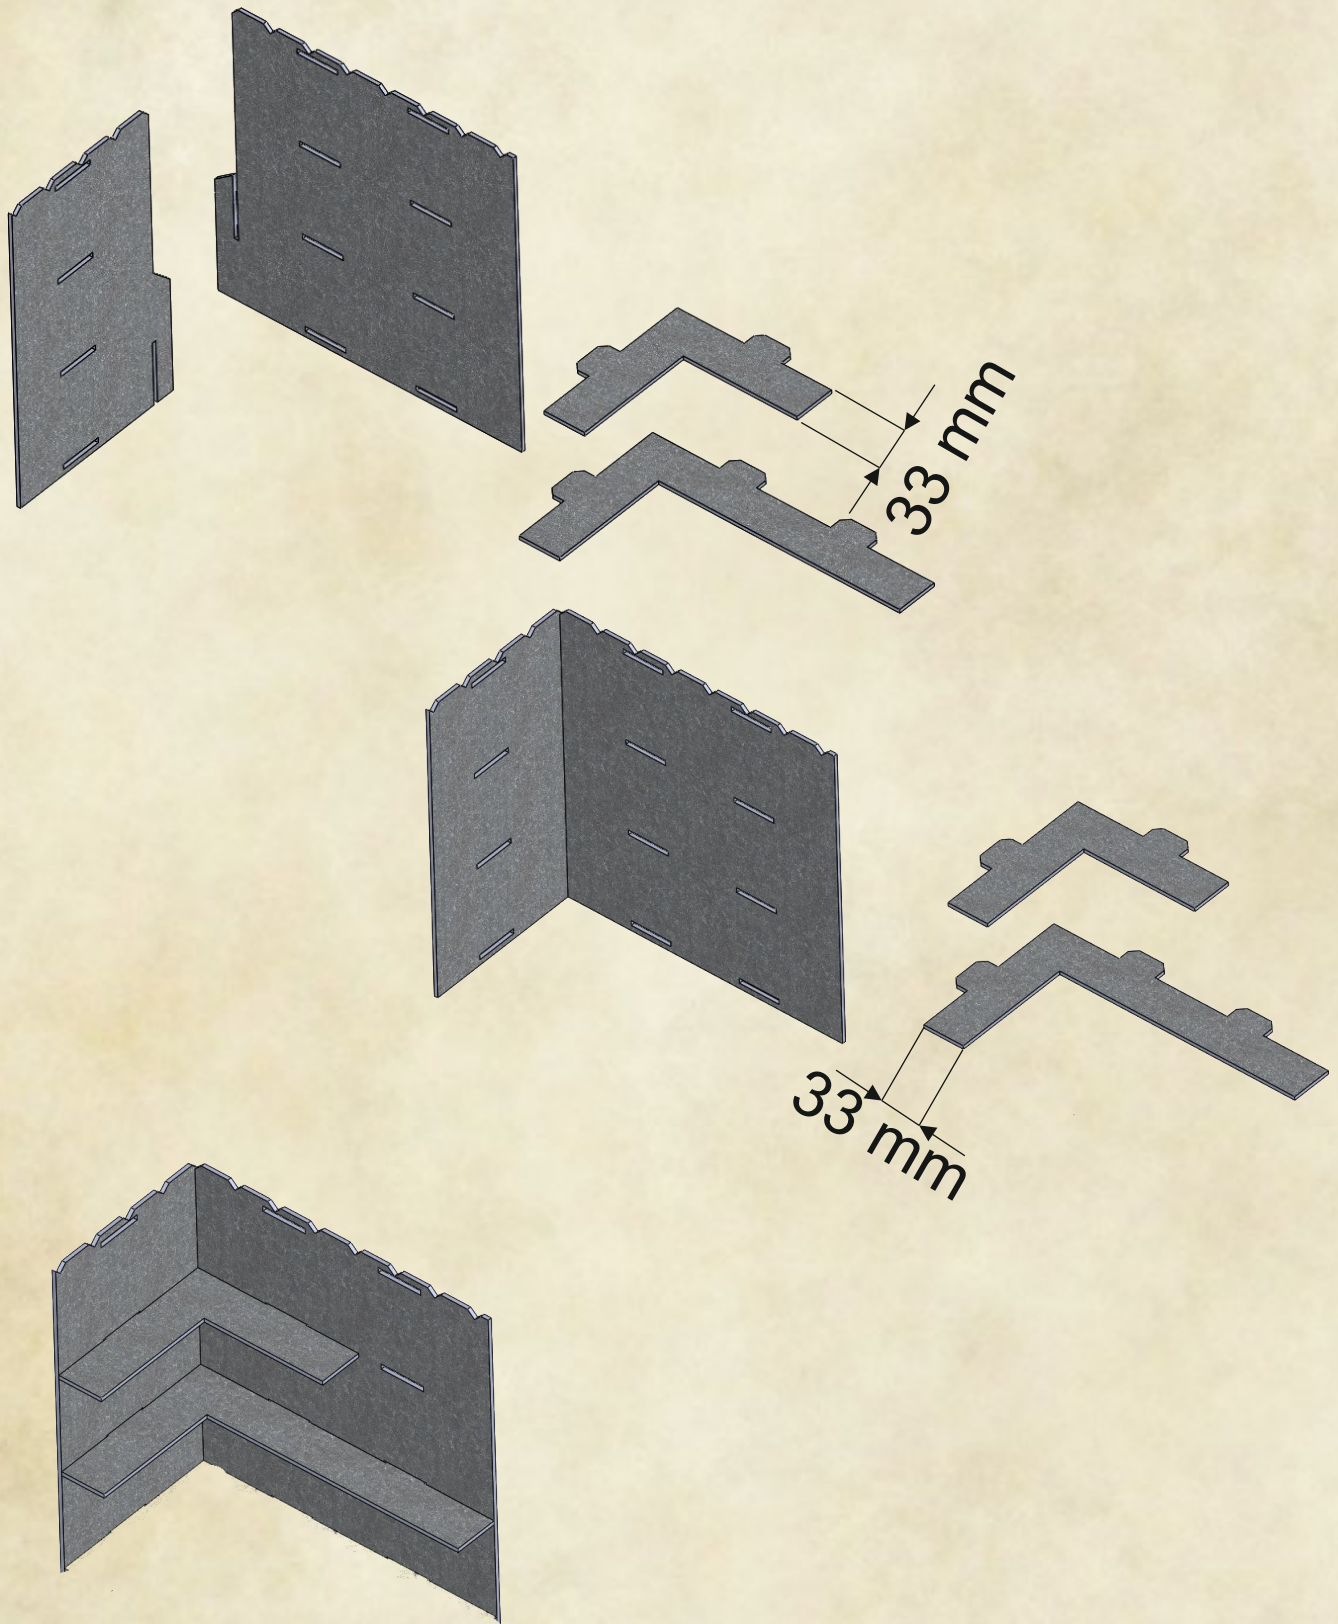

* You can always disassemble it for easy storage and transport!

* All windows in our ruins come still attached, it is an optional choice for you to remove them.

* Don't forget to crack open a cold one after each assembly!

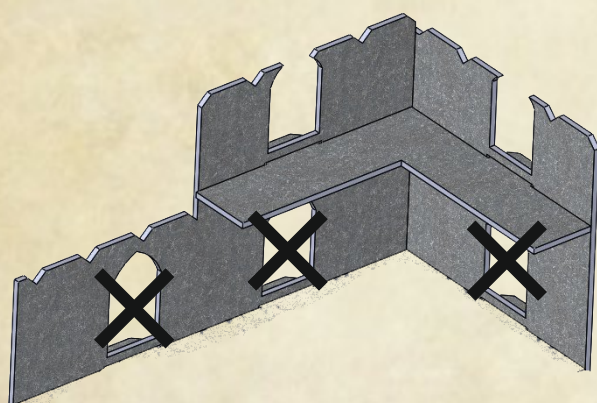

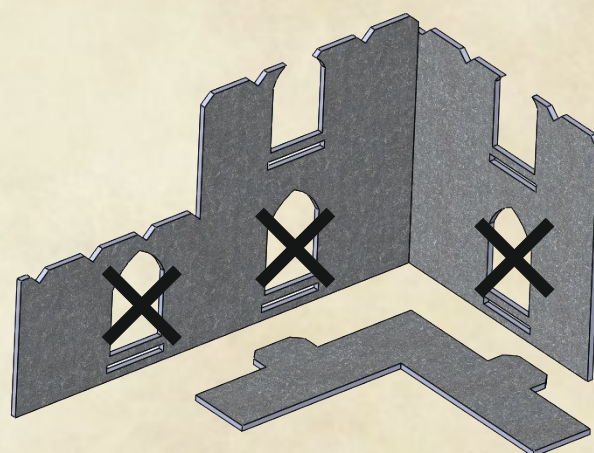

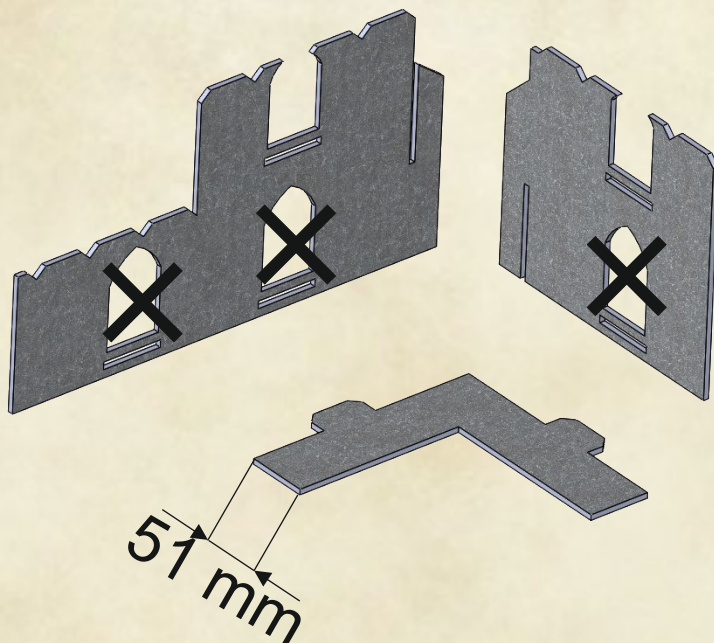

Three Storey Ruin (World Team Championship)

Corner Ruin (World Team Championship)

NOTE:
WTC decided to treat ground floor
windows as closed for 2023!

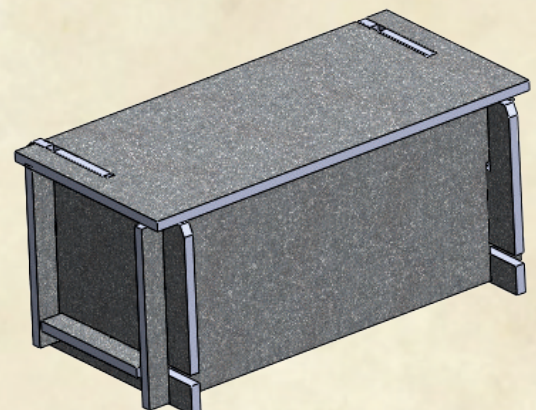

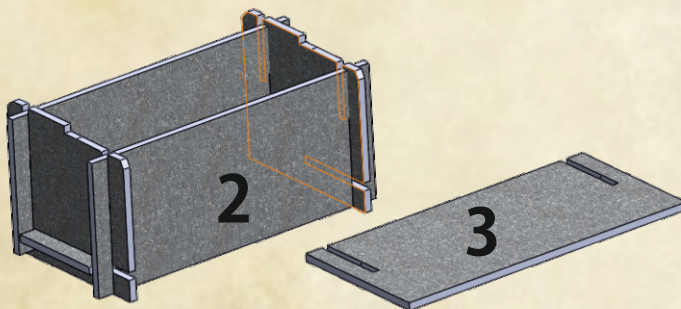

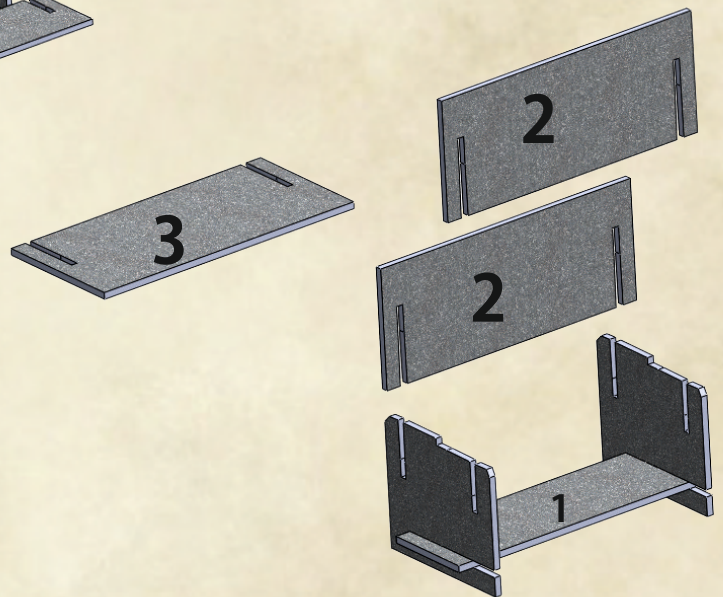

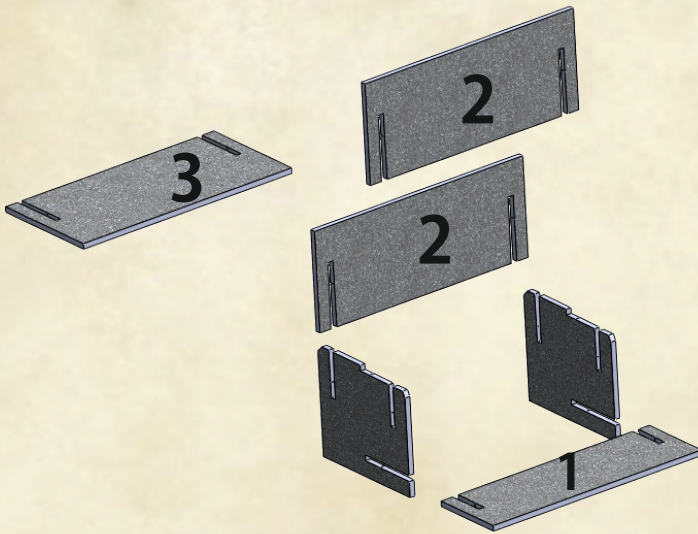

Container (World Team Championship)

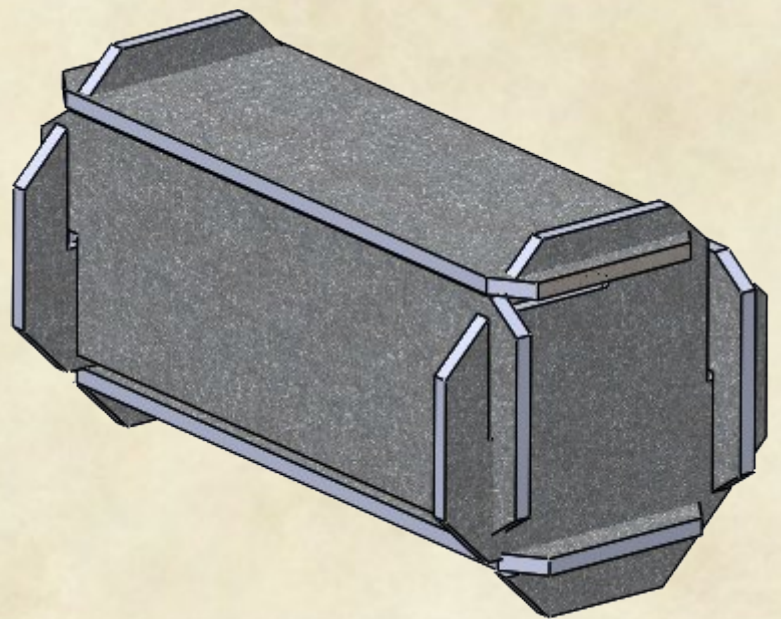

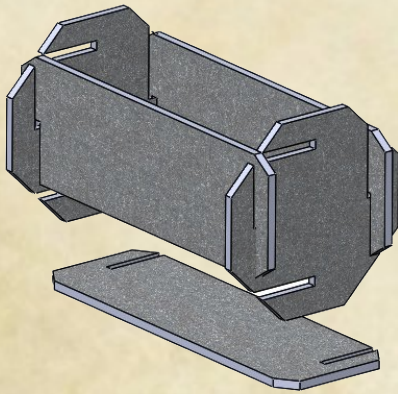

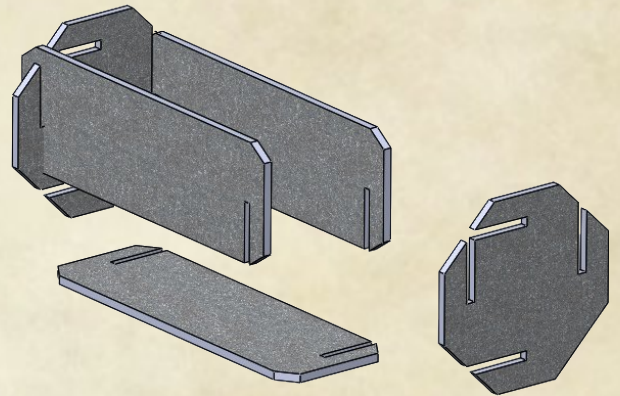

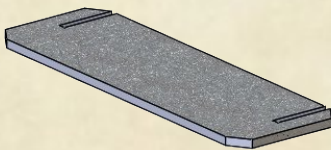

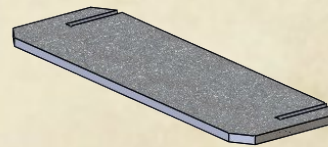

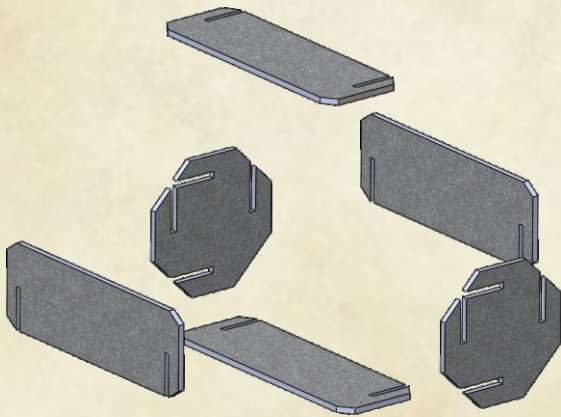

Numbers represent the size of the container walls.

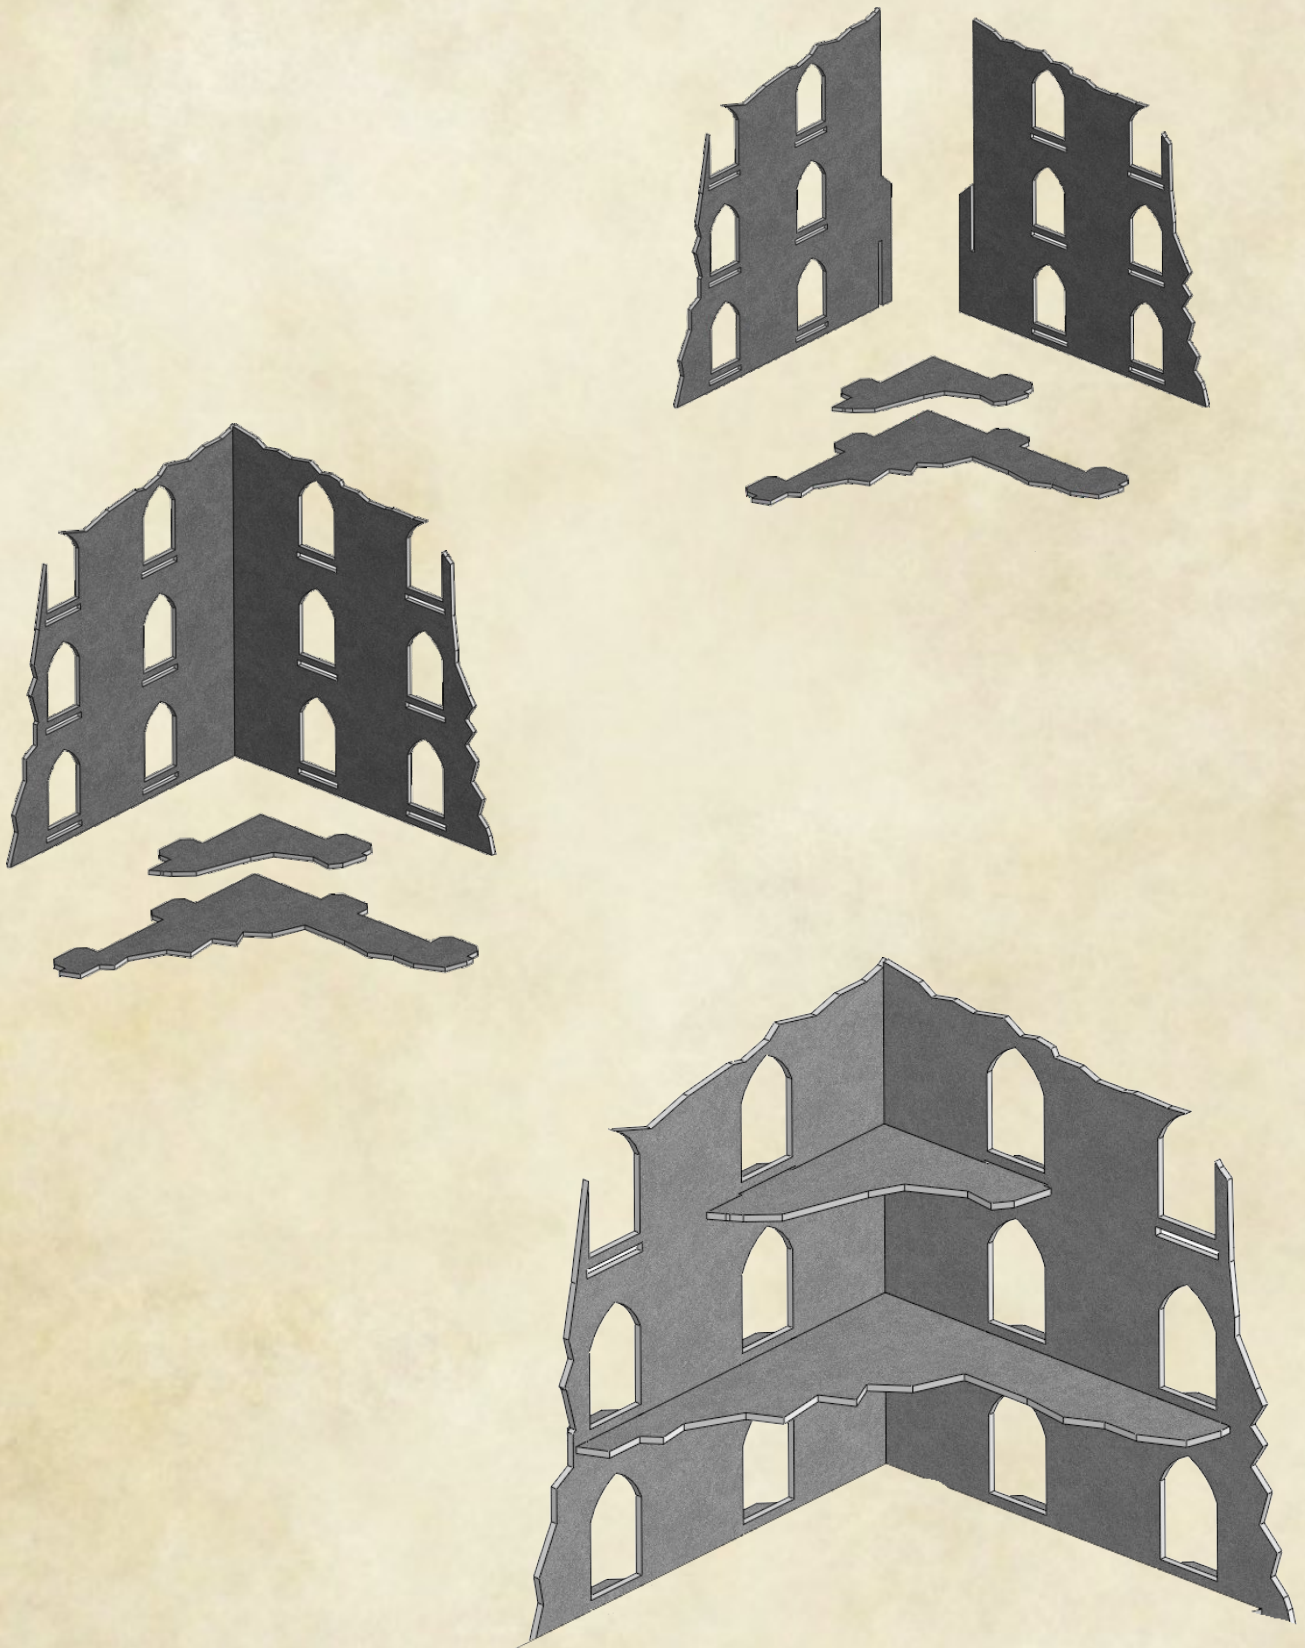

3 is the biggest (Top)
2 is the medium size (Sides)
1 is the smallest (Bottom)

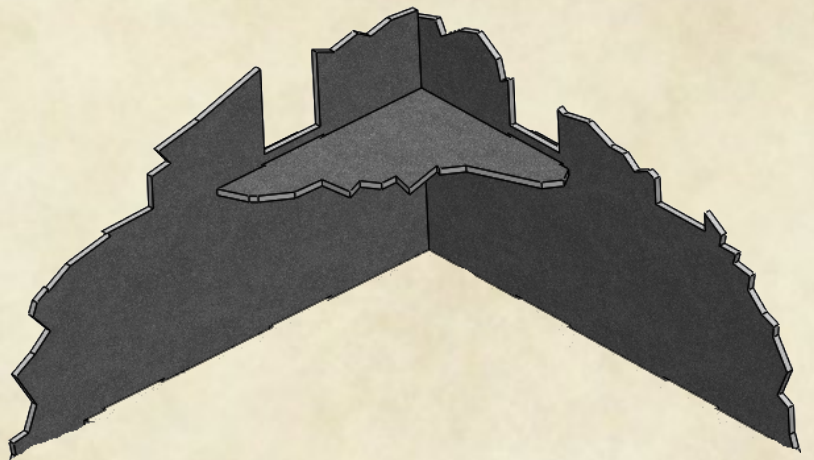

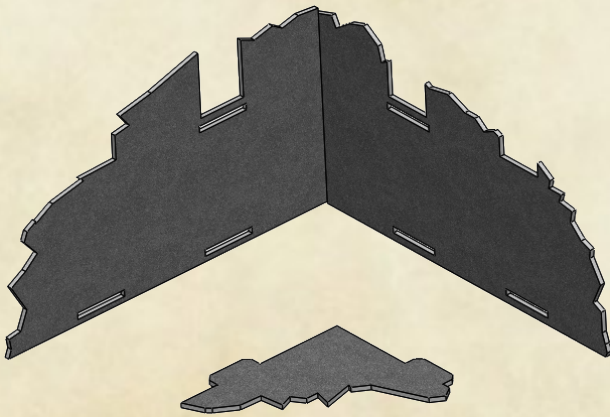

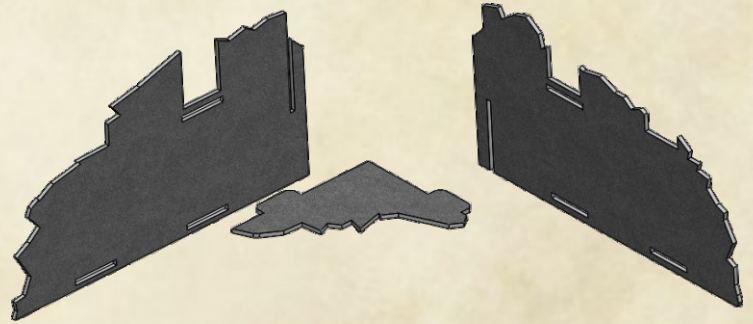

Container
