Hana was diagnosed with anaemia at the age of four. Act for Peace's partner on the ground is supporting children like her by providing lifesaving medicine and treatment. Since 2007, families in Gaza have been living under a blockade, often unable to access the vital healthcare they need. For children suffering from malnutrition and anaemia, a lack of basic medicine can have lifelong impacts. Hana's mother said:

**"It's really hard, these days we can't afford everything for the children,  
sometimes my children go to school without even a penny in their pockets,  
no money, so they can't buy anything."**

Your Gift for Peace is helping to provide access to critical physical and emotional support for many families like Hana's. With your support, together, we can help children like Hana and create a world where everyone has a safe place to belong.
