

AVANT
ART
ARCHITECTURAL
GLASS, INC.

Avant Art Architectural Glass, Inc. is a new-millennium company employing cutting-edge technological advancements to meet increasing demand for innovation in custom manufactured structural and decorative laminated glass. Providing safety, aesthetics, and energy conservation in architectural glass products is our primary goal.

Our product line features ***laminated safety glass*** utilizing Dupont™ SentryGlas® Plus/ SentryGlas® Expressions, Vanceva™ Polyvinyl Butiral, as well as proprietary polymeric transparent, opaque, and translucent interlayers ***with digitally printed images and graphics, wood veneers, colors, textiles, Japanese paper, metals, lenticular and holographic patterns.***

Different levels of security and privacy can be achieved by combining interlayers with textured or non-reflective glass of various strength and transparency in a multilayer structure.

Imagination captured in laminated safety glass could turn into impact-resistant walls with visual expressions, an all-glass staircase, a skylight, a countertop, or an eternally preserved piece of fine art.

Interaction of light and glass produces an aesthetically pleasing effect for every taste.

Combinations of the individual features provide endless possibilities for creativity satisfying any custom design requirement.

Avant Art Architectural Glass, Inc., 1495 Schenectady Avenue, Brooklyn, NY 11203

ArtMotif Hologramme

Holographic metal ripple with limited light transmission.

Available in various colors, including silver and gold.

We offer several other holographic patterns to choose from or you can create your own.

Annealed or tempered safety laminated glass.

ArtMotif Impression

Custom digital imagery in glass.

Digital images from fully transparent to opaque.

Annealed or tempered safety laminated glass.

ArtMotif Palette

Color panels can be made as simple or complex as you desire: from basic transparent, translucent, and opaque to intricate color shades with different levels of light transmission and diffusion.

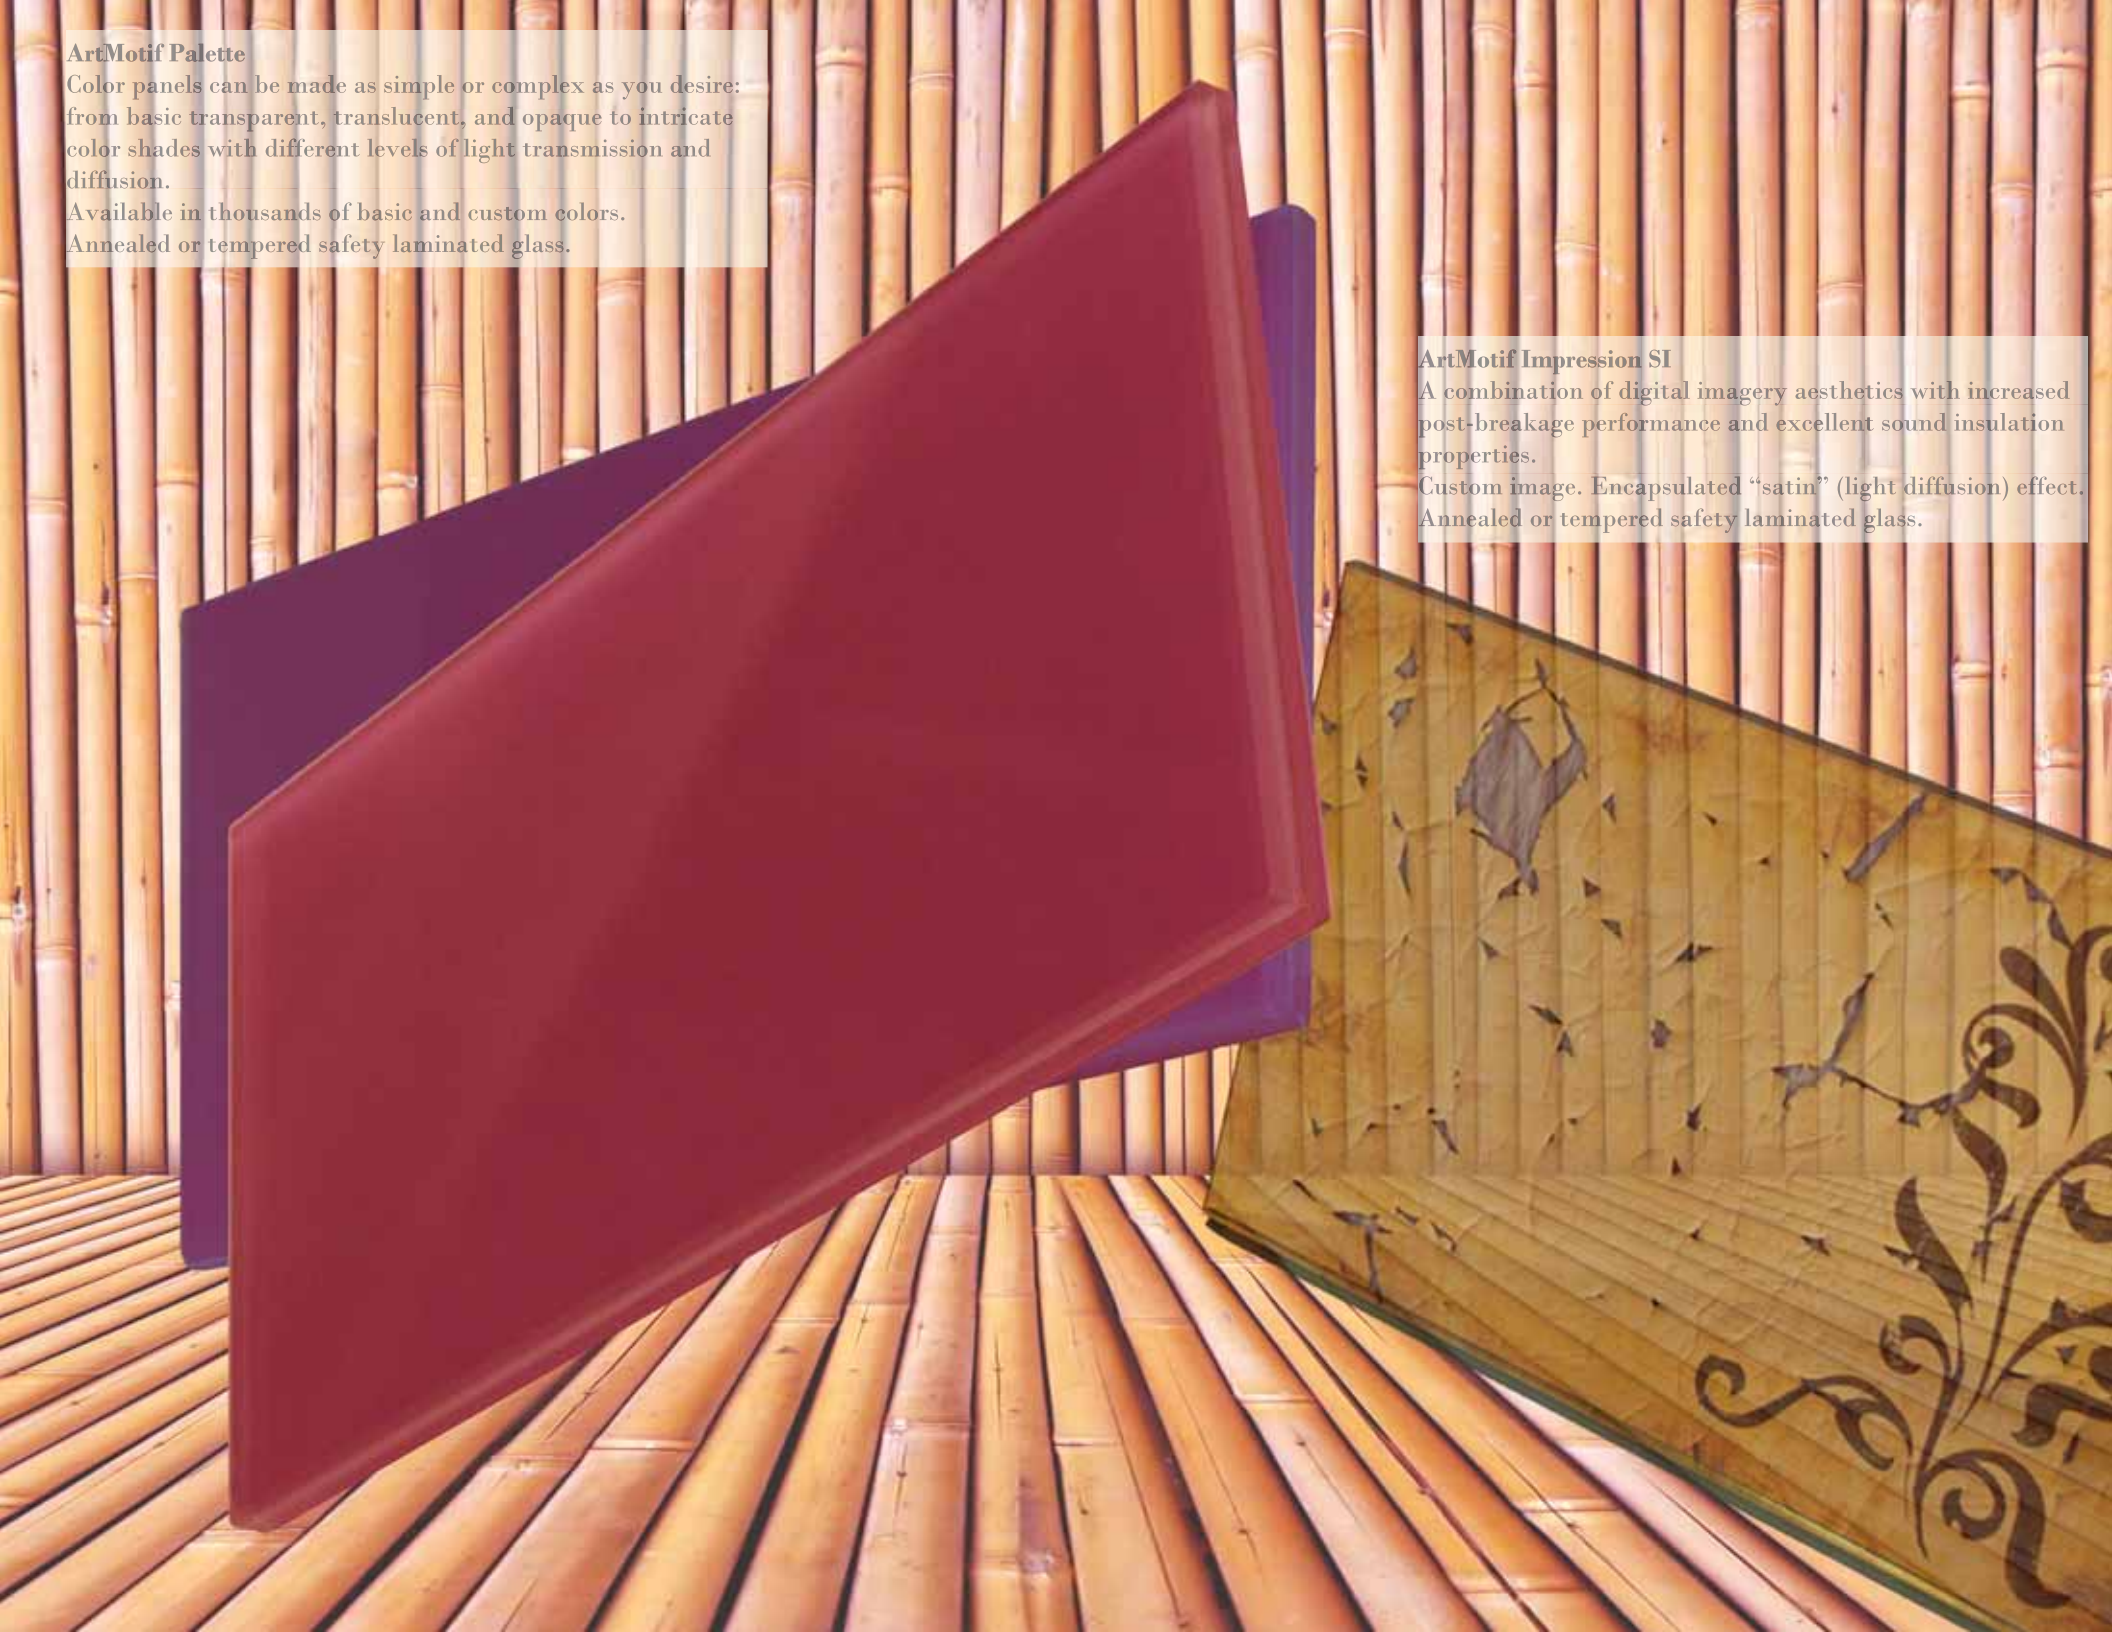

Available in thousands of basic and custom colors.

Annealed or tempered safety laminated glass.

ArtMotif Impression SI

A combination of digital imagery aesthetics with increased post-breakage performance and excellent sound insulation properties.

Custom image. Encapsulated “satin” (light diffusion) effect.
Annealed or tempered safety laminated glass.

ArtMotif ContrePlaque

Genuine raw wood veneer.

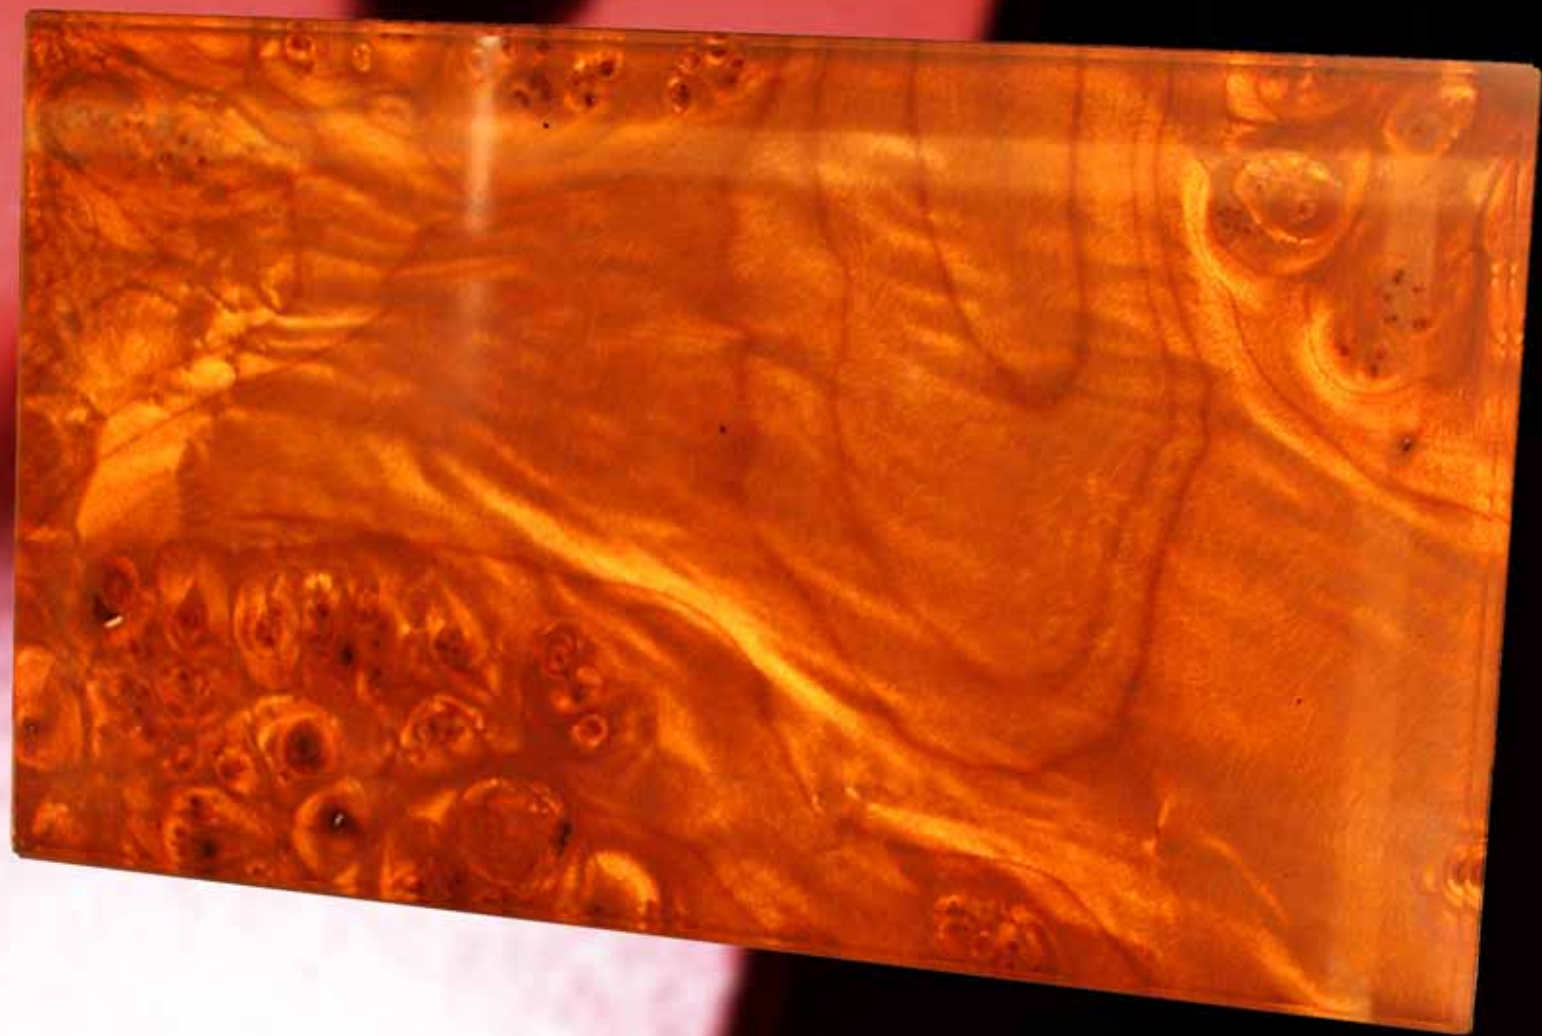

Wide selection of designer veneers, including burls, for custom production.

Maximum panel size varies with wood type.

Annealed or tempered safety laminated glass.

ArtMotif ContrePlaque
Genuine raw wood veneer.
Light texture with glow-in-the-dark effect.
Annealed or tempered safety laminated glass.

Digital imagery on raw veneer.
A visually striking blend.
Custom image and your choice of veneer.
Also available in various colors.
Annealed or tempered safety laminated glass.

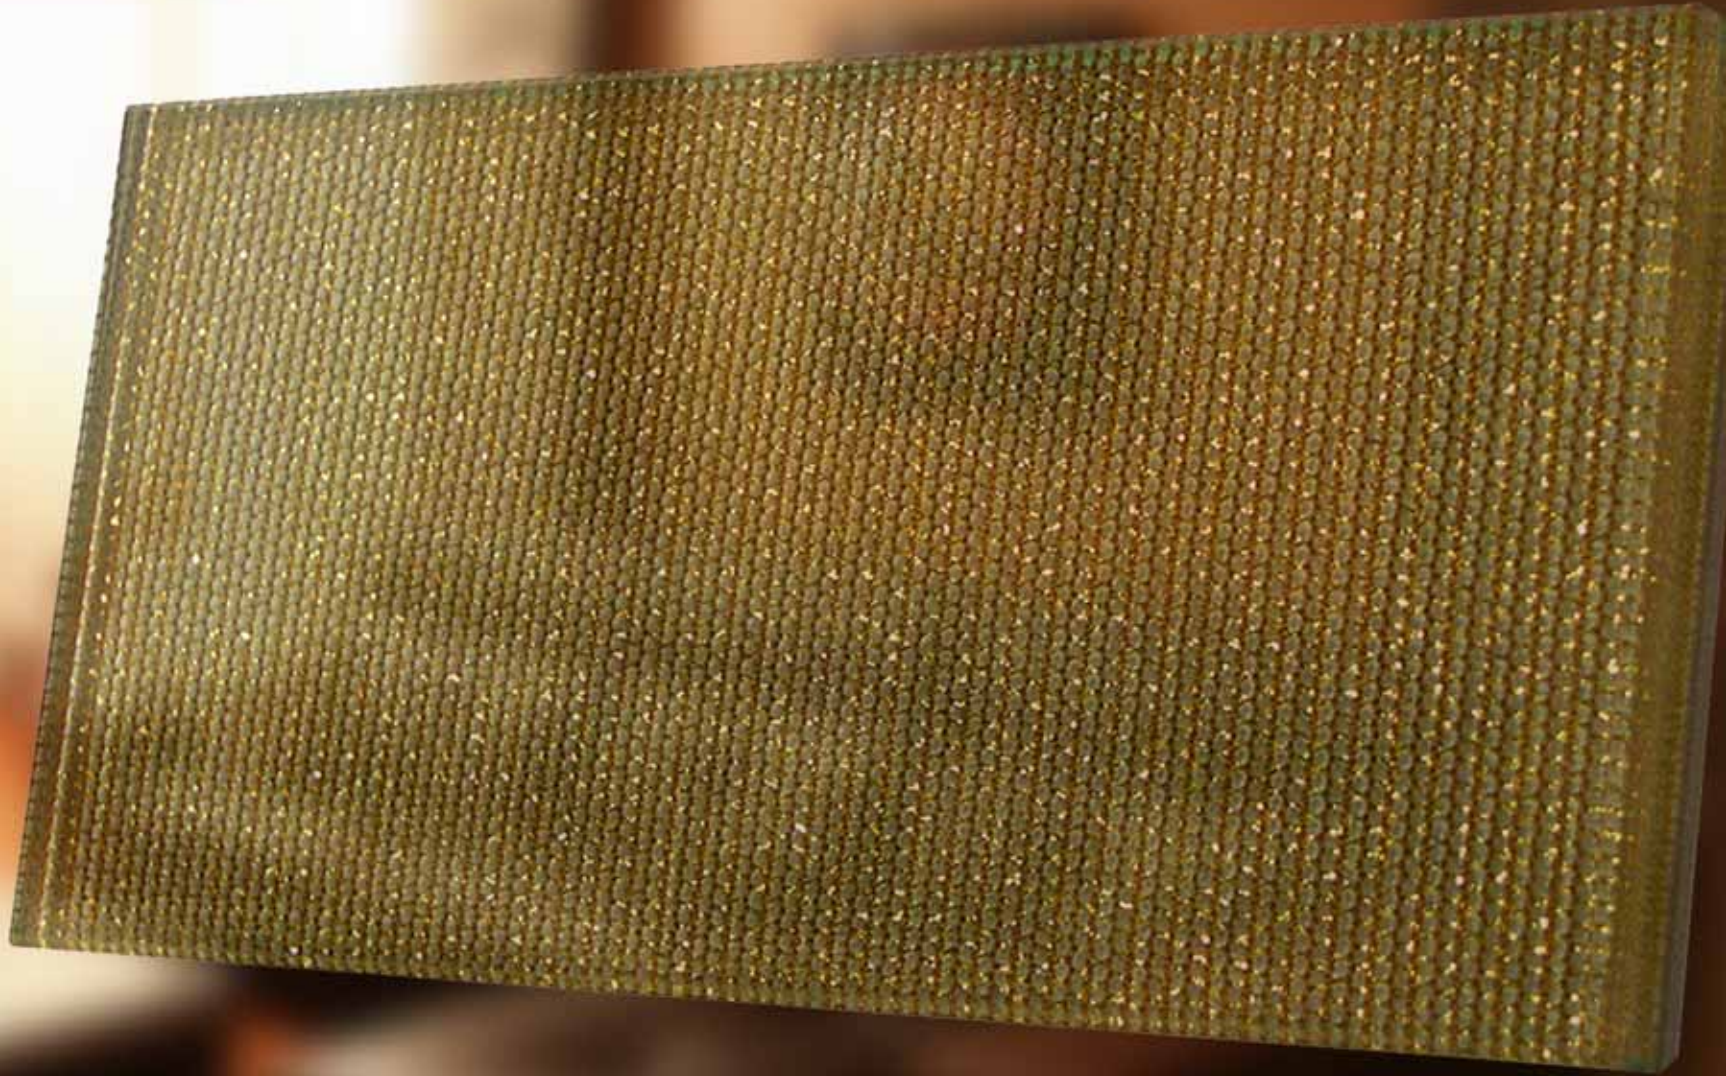

Japanese paper in clear glass.
Available in various colors, textures, and densities.
Annealed or tempered safety laminated glass.

Textile with golden accent.

Give us your own fabric and we will turn it into glass.

Annealed or tempered safety laminated glass.

ArtMotif Kaleido

Dichroic figured glass.

Colors change with viewing angle.

Also available in transparent lens.

Annealed or tempered safety laminated glass.

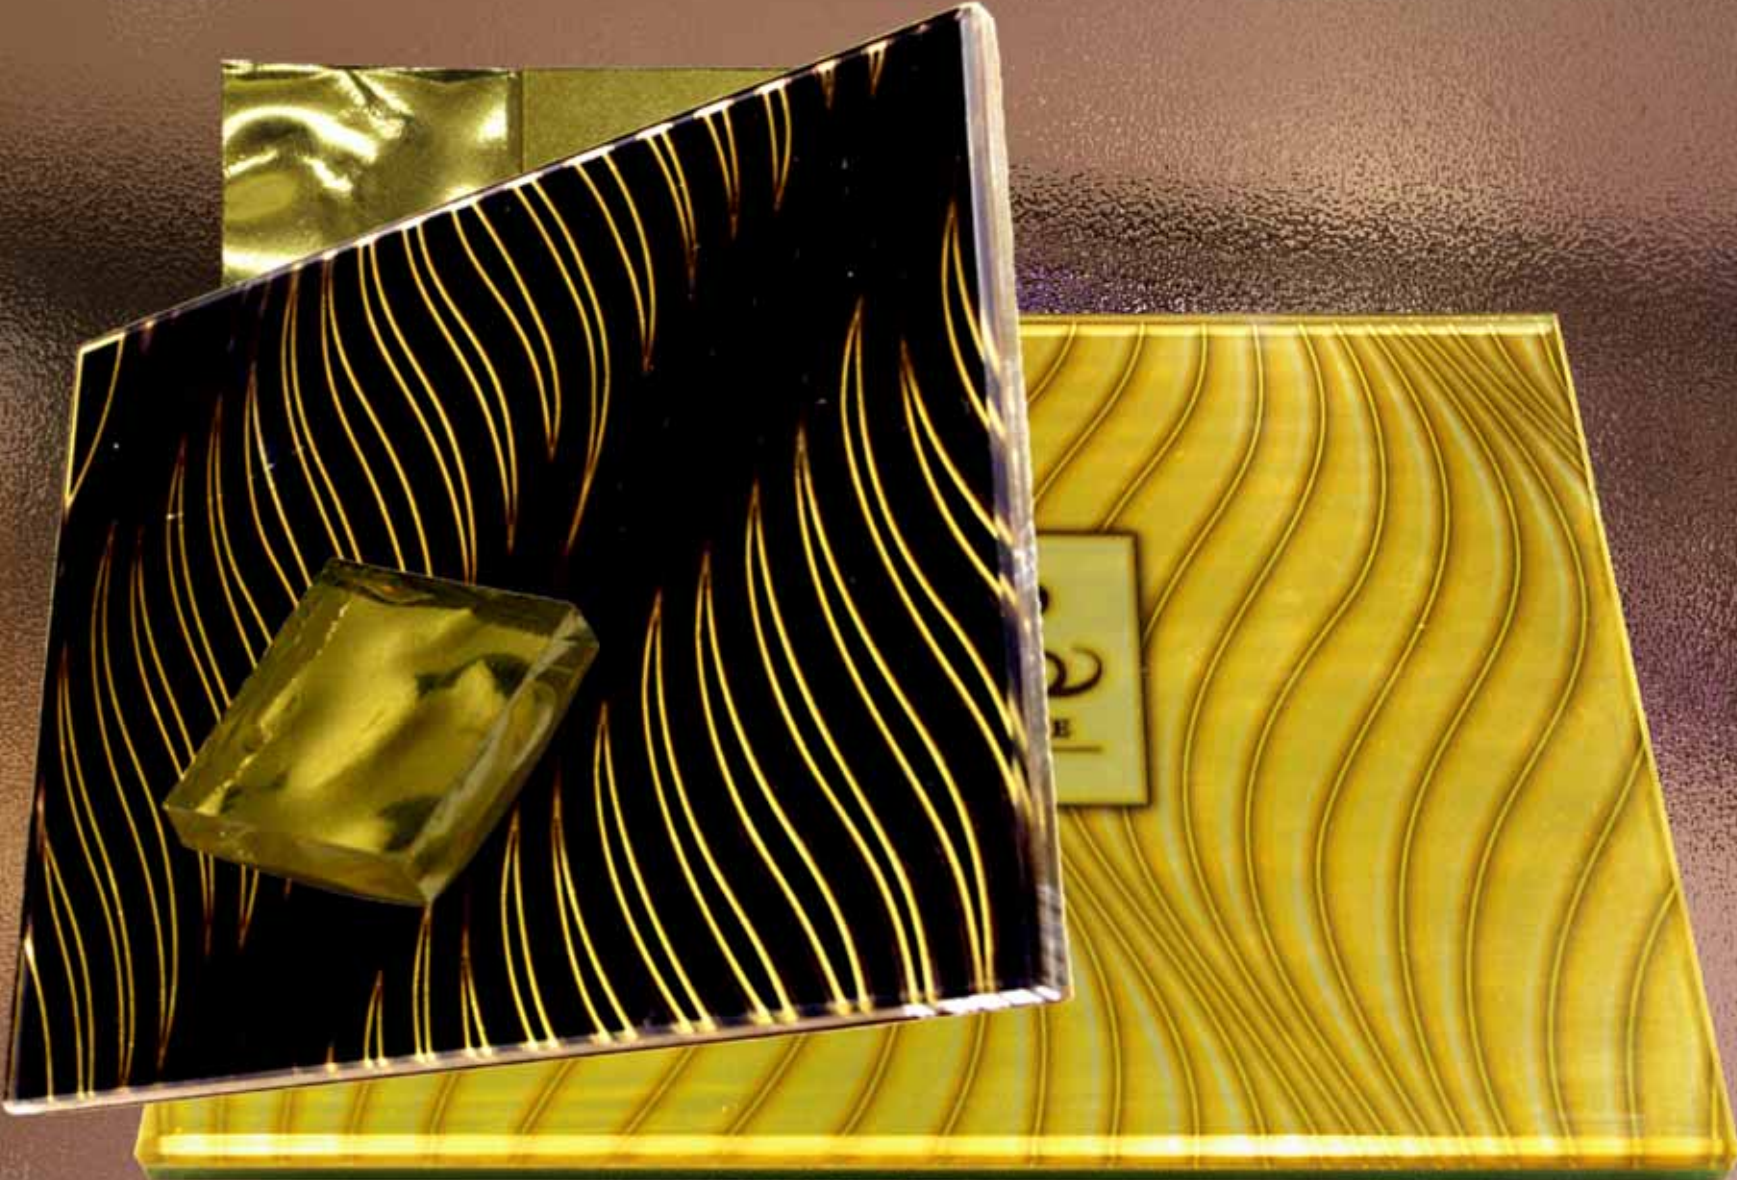

ArtMôtif Impression
Silhouette in translucent white.
Eternally preserved artistic expression.
Annealed or tempered safety laminated glass.

Custom panels: printed pattern on metallic surface.

Custom mosaic: 1"x1" 24K gold glass squares.

Digital image with encapsulated “satin” effect
on carved metallic surface.
Yet another illustration of creativity.
Annealed or tempered safety laminated glass.
One-of-a-kind orders are welcome.

Brushed aluminum interlayer.

A stylish complement to any modern interior.

Available in various colors.

Annealed or tempered safety laminated glass.

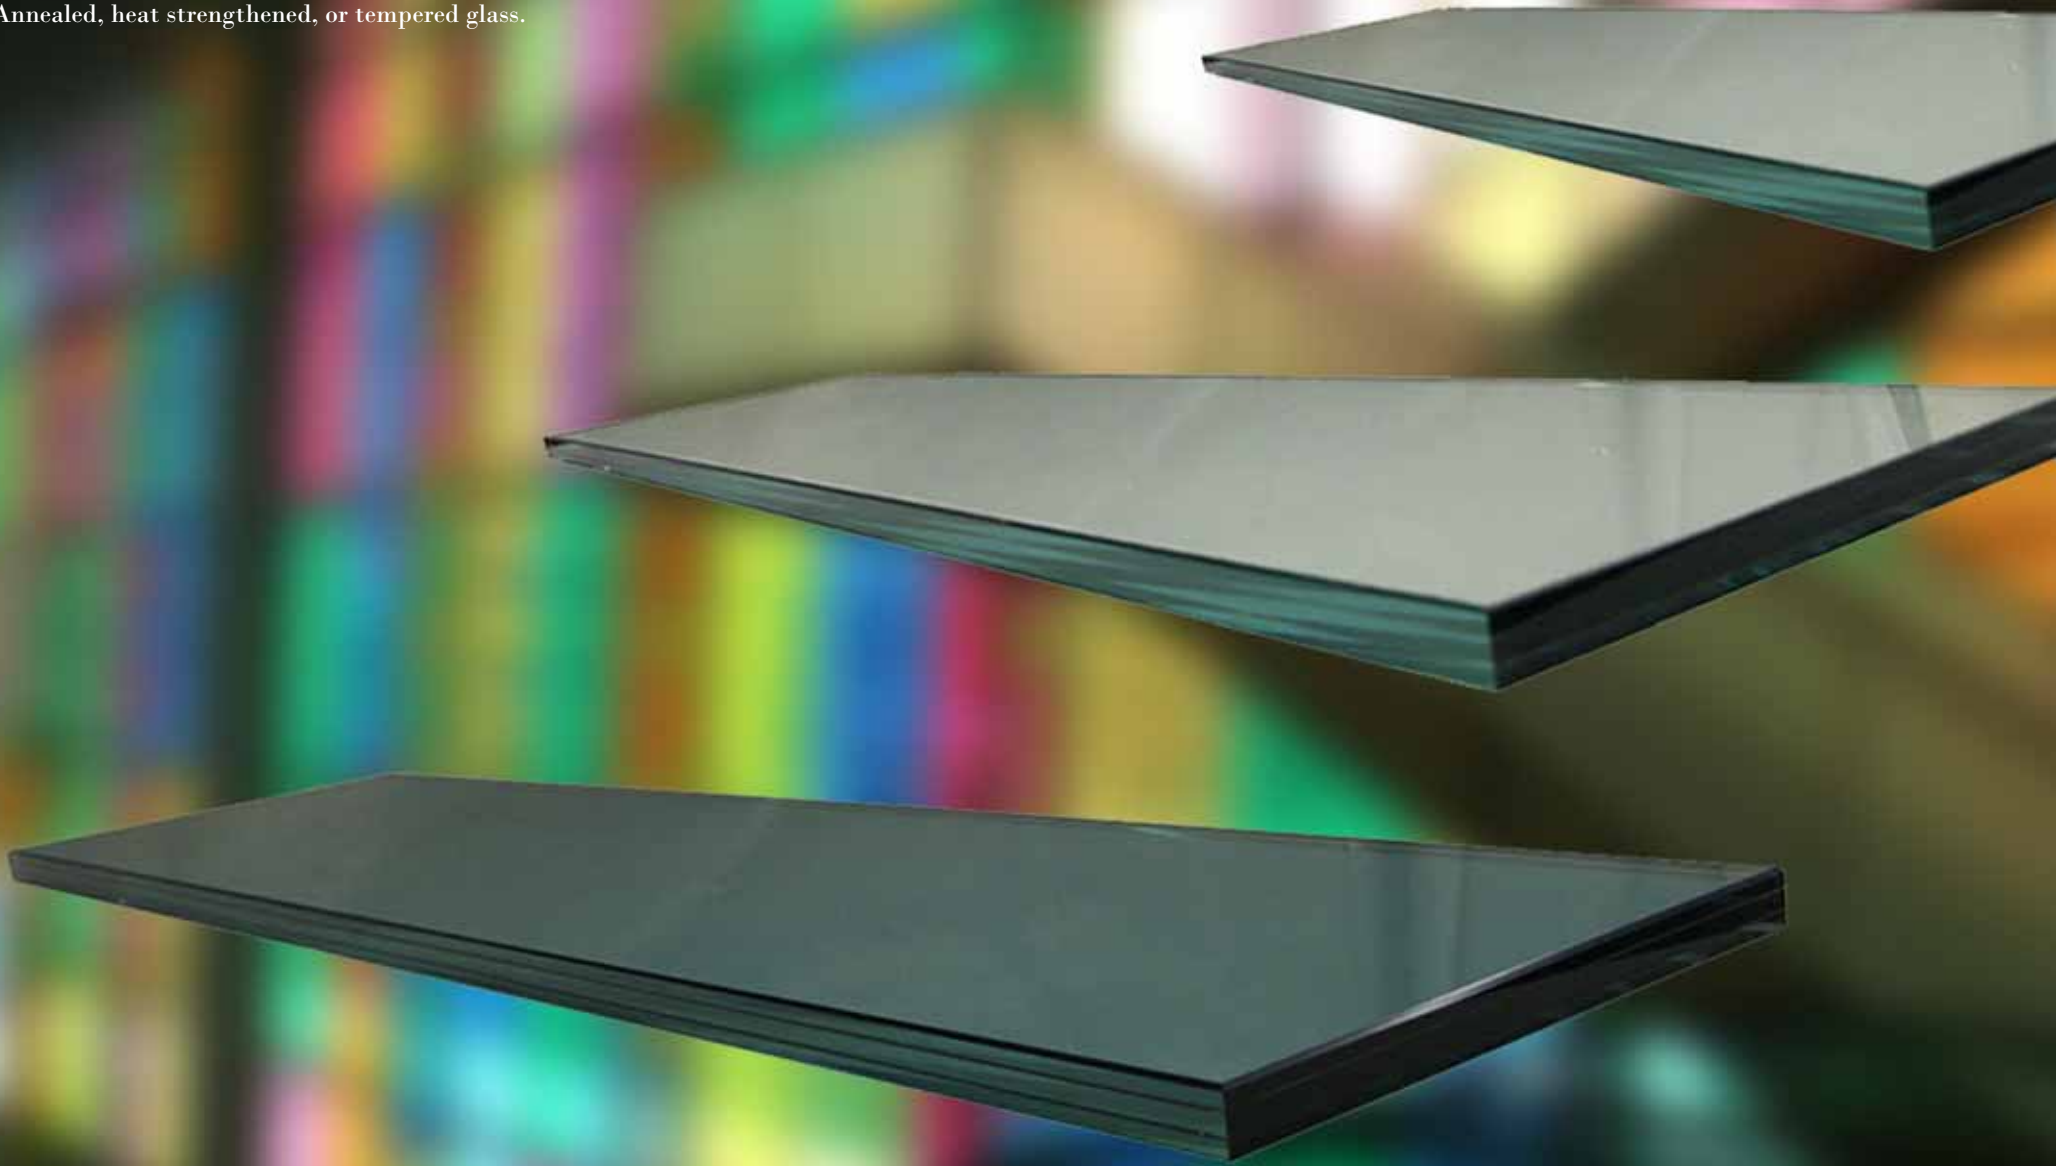

Glass stair treads.

Triple laminated with Dupont™ SentryGlas®Plus.

Available with figured or etched slip-resistant surface.

Composites consisting of three or more glass lites are utilized for flooring, walkways, staircases, overhead glazing, and high security partitions.

Annealed, heat strengthened, or tempered glass.

One of our favorite designs in backlit closet doors and translucent non-reflective glass partitions.
Private residence, New York.
