

Kompact Transport Service

Private Transportation Services

Kompact Transport Service rates for Private Ground and Air transport are figured by the size of your pet and how much space they occupy in our van (carrier dimensions cost chart is below) plus a gas surcharge of \$.15 cents per mile of your total transport miles door to door, charge tax and tolls included. This is a current gas surcharge rate as of September 1st, 2017. As gas prices change so will the percentage rate. Adjustments are made the first of every month. There is also a 2.9% credit card processing fee. No personal checks are accepted.

To figure up a quote, add the cost of the crate space plus \$.15 a mile from zip code to zip code.

Kompact Transport Service transports are figured by the round trip mile starting at our office in Valley Springs, Ca.

We also offer a 10% multi pet transport discount for 3 or more dogs and we also offer a 10% Active Military discount with ID.

Below you will find our cost chart that we use to figure the rates for transport by ground and air. The crate dimensions are listed along with the price.

We provide everything needed along with the soft sided crates for safe travel. For air travel we only travel with small dogs. All small dogs travel as a carry on; we do not place dogs in cargo. Please contact us if you have any questions.

Private Ground & Air Transportation
