

Paintbrush

1. Cut all of the pieces out of desired card stock.

2. Line up the bristle piece under the handle piece and adhere in place.

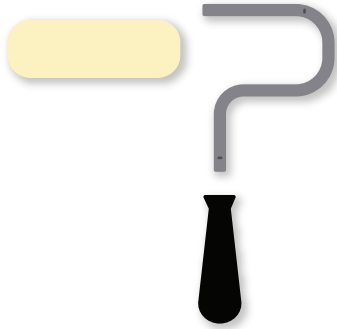

3. Line up the handle detail piece over the handle piece and adhere in place.

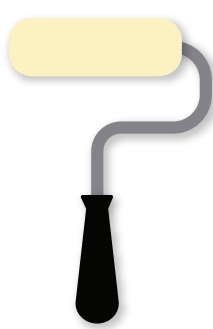

4. Line up the paint drip piece at the top of the bristle piece and adhere in place to finish (optional).

Paint Roller

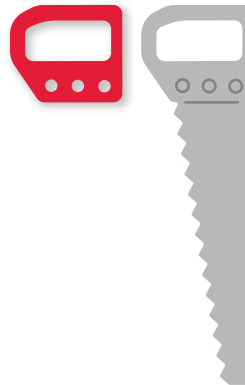

1. Cut all of the pieces out of desired card stock.

2. Use the emboss lines on the frame elbow piece (gray) to line up the roller and handle pieces and adhere in place to finish.

Saw

1. Cut all of the pieces out of desired card stock.

2. Line up the handle piece over the base piece and adhere in place.

3. Cut a second handle piece from a different color of card stock and inlay the three circle pieces in the handle piece to finish (optional).

Level

1. Cut all of the pieces out of desired card stock.

2. Use the emboss lines on the base piece to line up the vial pieces (yellow) and adhere in place. Optionally, cut a second set of vial pieces from a different color of cardstock and inlay the pill shaped pieces in the vial piece.

3. Line up the frame detail pieces over the vial pieces and adhere in place to finish.
