Empty folder

Part 4. How to share files stored in your PC to IRIS device and play them on IRIS
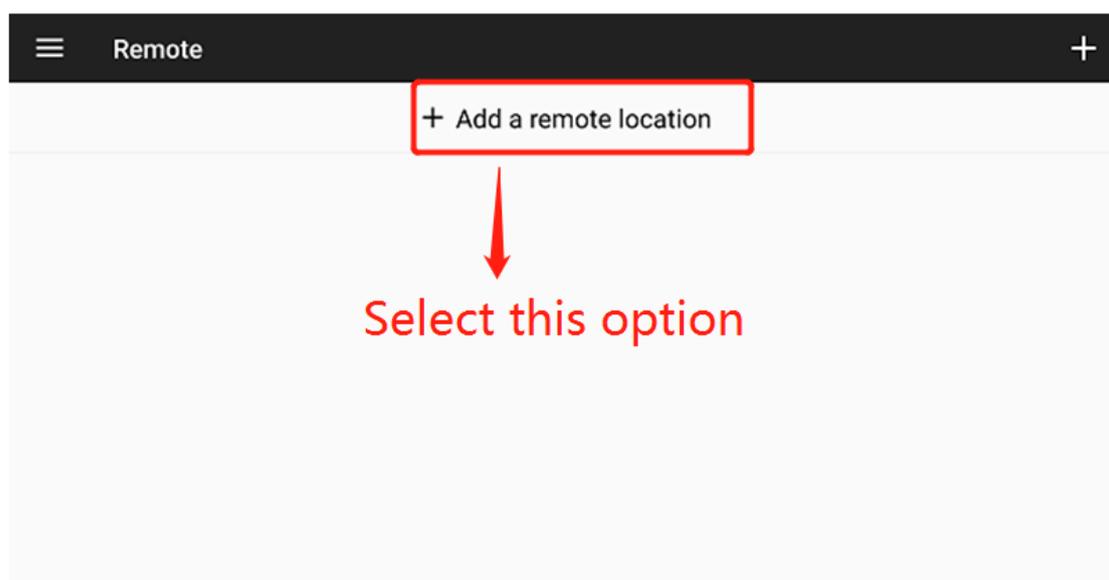

Step 1:

Share the folder where your videos are stored on your computer across local network. You can follow the guide from this link: https://www.youtube.com/watch?time_continue=13&v=oLFfN0kPyWk
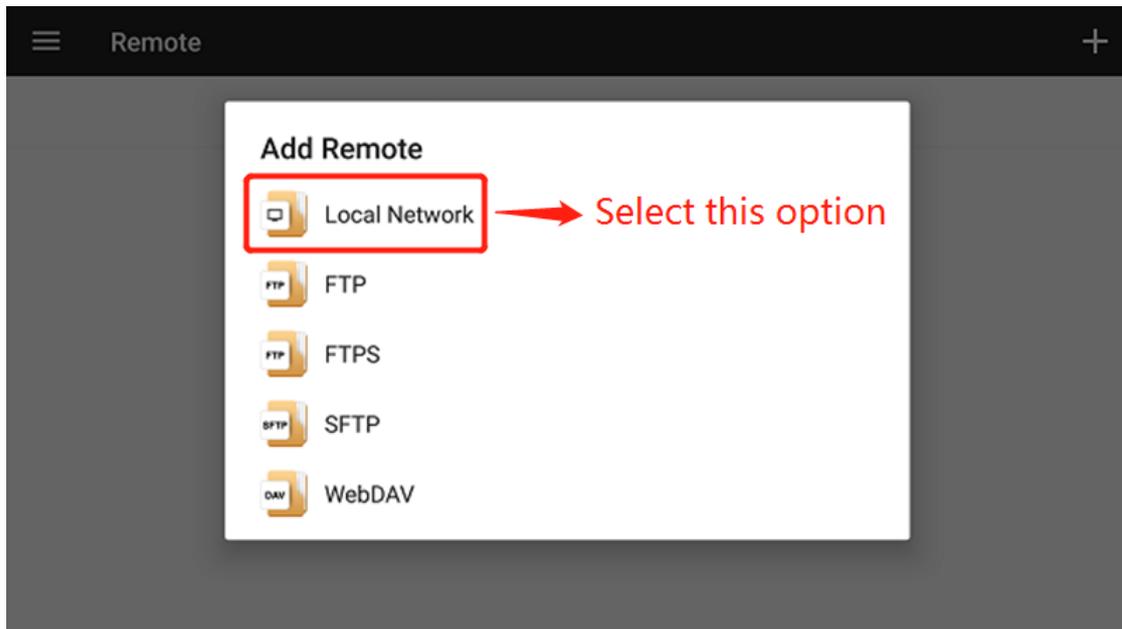

Step 2:

Go to File manager in your IRIS and select "Remote" icon.

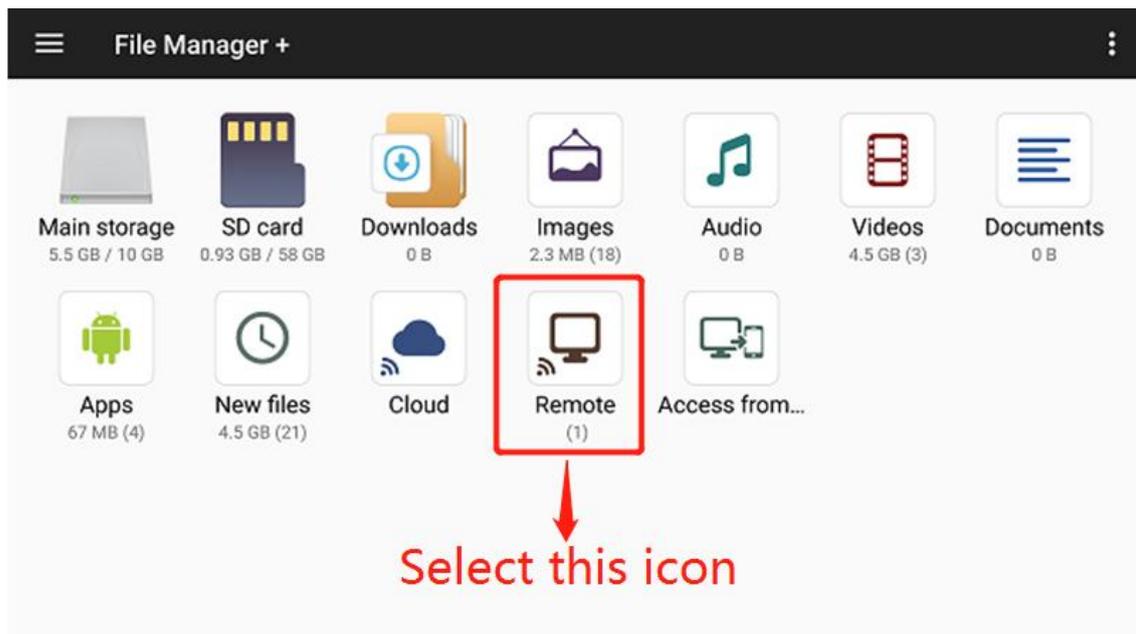

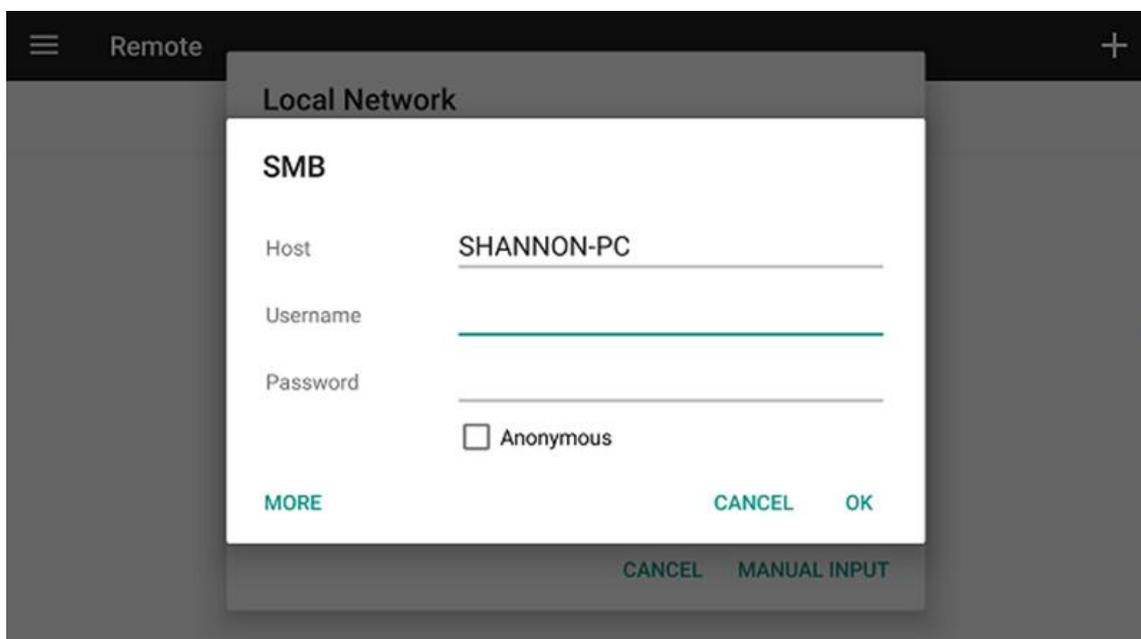

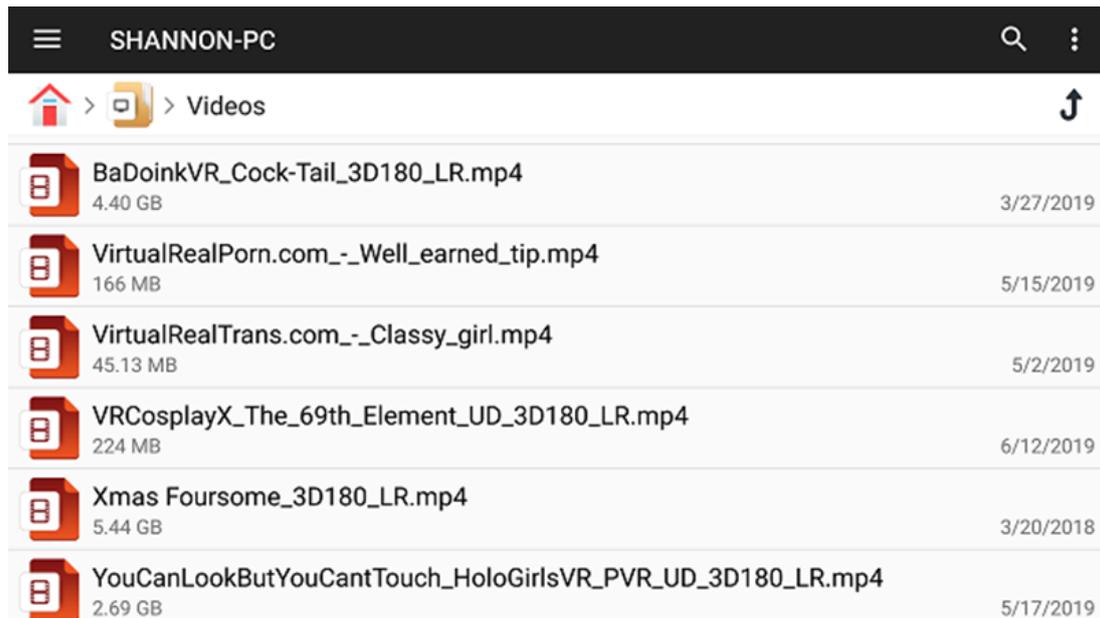

Step 3:

Step 4:

Step 5:

The username & password will be the same as the login to your computer

Step 6:

Once logged in you will see the shared folder, select it and play the videos in it directly from IRIS device.
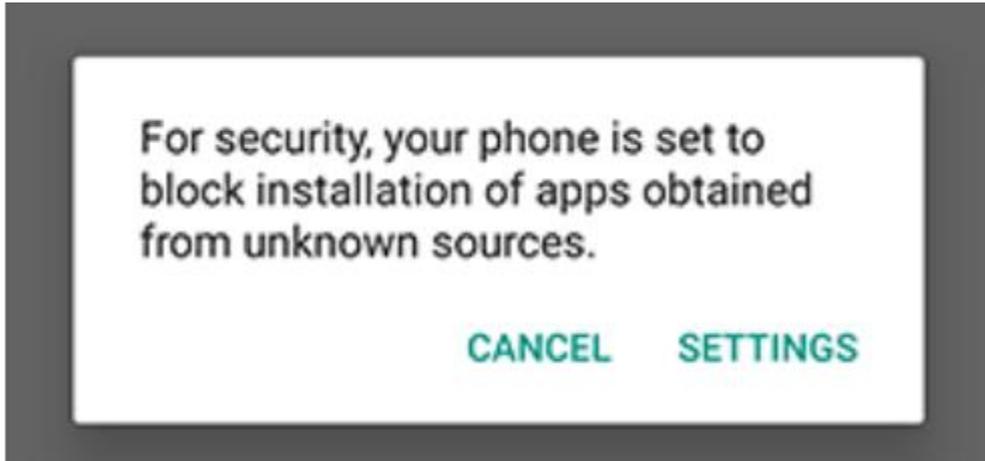

Part 5. How to install apps

Step 1:

PVR makes 3rd party apps available for optional download on to your IRIS via our very own App store. We will be adding more apps to the store as we grow.To see what apps are currently available for you to use on your IRIS visit the app store by selecting the 'Discover more apps' banner on the left of view on the home screen.

Step 2:

Choose app by clicking box that contains this app. Selected app will be downloaded automatically. It will take several minutes depending on your network speed. So take a break and have a cup of tea!

Step 3:

Tap Open when downloading is complete. You may be asked to give permission to install unknown resources apps for the first time(this windows will not appear next time).

For security, your phone is set to block installation of apps obtained from unknown sources.

CANCEL   SETTINGS

Choose SETTINGS, then scroll down on following window, just check "Unknown sources" and you're all set.
