

Product Number: 50

Intumescent Liner for Mail Apertures

Description:

An intumescent liner comprising two L-shaped sections fitted with self-adhesive backing tape for ease of fixing. The liner can be cut to size with a sharp knife to fit the opening. Sizes to suit other openings can be made to order. For mail apertures in fire doors, where existing letter flaps are to be used. Aperture sizes up to the limit for each type (LBL1 and LBL2) can be accommodated by cutting the liner with a sharp knife as required. A bare wood aperture must be sealed with paint or wood sealer before fixing the liner. Suitable for fitting to doors from 38mm to 70mm thick.

The Intumescent Liner for Mail Apertures is available in two standard sizes:

<u>Reference</u>	<u>Overall Size</u>
LBL1	85 x 340mm
LBL2	65 x 290mm

(Special sizes made to order)

Application:

2 L-shaped sections supplied with double sided tape on the back. Place long section on top of the side section and cut both angles to length. Peel off double sided tape and adhere to the inside of the opening. It is advisable to put panel pins into both side pieces.
