

Product Number: 73

Rebated Acoustic, Draught, Smoke & Weather Seals

Description:

A 3mm deep x 10mm wide x 2100mm long aluminium or plastic holder (black, brown, cream, grey, red, or white plastic) containing a brush seal in various sizes and colours or a black rubber seal in various sizes and patterns. The holder has a self-adhesive backing for ease of fitting. The seal holder is rebated into wooden doors or windows and adhered to the surface of metal windows using the self-adhesive backing on the base of the holder. It can be fitted to single or double doors, folding doors, sash windows, etc.

Application:

Make a rebate in the door or frame to suit the 2mm deep x 10mm wide holder. Always add 1mm to the width of the holder for the rebate to allow for the shrinkage of timber / paint. Remove the cover paper from the holder's self-adhesive backing then position the seal and fix. Finally, secure each end with panel pins. The holder can be painted but NOT the seal fitted to it.

Note: ensure that new wood is sealed before adhering the holder.

Important – 1-1½mm of the brush or rubber seal is held within the holder. Brush with fin is always ½mm higher than regular brush. Make allowance for this when specifying.
