

FLAMMA

FIRE PROTECTION SERVICES

Specialist Passive Fire Protection Installation

Accountable:

Don't take the risk - Engage a specialist! We ensure all products conform to Fire safety regulations E and B (NI) and B & D (ROI). We pride ourselves on integrity with clear product advice testing.

Traceable:

We are the all Ireland Agent for all envirograf products, providing traceability from procurement to supply.

Experienced:

Flamma has over 30 years, experience in the building trade. 20 years specialising in fire protection along with experience in upgrading historic buildings. We provide a consultancy service to help you coordinate your passive installation correctly from inception to completion

Technical Support and aftercare:

As the only all Ireland envirograf installer we can provide technical support directly from Envirograf Ireland on all of their products & also industry support on other system we install

The bottom line:

Flamma customers benefit from certificates of supply as well as installation. This is vital to comply with the regulations and best practice. We work closely with Envirograf for your passive installation and certification needs. Giving you assurance that your certification is of value when issued.
