

Product Number: 25

### Intumescent Protection Sleeve System For Cables

#### Description:

A complete unit giving fire and smoke protection to electrical and plumbing services passing through fire barrier walls made from block, brick, concrete, and hollow plasterboard. The system comprises three parts: (A) A semi-flexible tube 200mm or 600mm long that can be cut to the right size to suit the floor or wall. In case of fire, this will intumesce and fill the hole, preventing the spread of fire. (B) Two smoke protection units (one placed each side of the penetration) that allow the maintenance of services but, in a fire, prevent the spread of smoke. Fire barrier for use in walls and floors, where cables can be easily installed or removed.

#### Material Specification:

Multigraf Intumescent material chemical constitution

Mineral Wool Fibre	20-70% by weight
Exfoliating Graphite	20-60% by weight
Organic Binder (including adhesive coating)	5.0-30% by weight

#### Test Details:

Integrity

Insulation
