Soffit Board Intumescent Ventilator

Description:

Intumescent metal ventilation grilles to fit new, or to replace plastic ventilation grilles, designed to prevent external flames from entering the roof space and spreading fire.

Use:

Circular or rectangular grilles containing intumescent material that seals the vent openings in the event of a fire to protect the roof space from flames and hot gases that may enter from broken or open windows below. Absolutely essential in loft conversions and for use over windows in the dining room, kitchen and lounge areas

Material Specification:

Multigraf Intumescent material chemical constitution

Mineral Wool Fibre	20-70% by weight
Exfoliating Graphite	20-60% by weight
Organic Binder (including adhesive coating)	5.0-30% by weight
