

Product Number: 106

Door Threshold Ramps and Seals

Description:

The Envirograf® curved ramp and seal system for door thresholds comprises two distinct high tensile plastic mouldings to be used together or separately. Component DT is a curved ramp moulding containing a carpet pile threshold seal and component DTE is a curved ramp moulding without the carpet pile threshold seal to meet the carpeted moulding on the other side of the door threshold (or to be used independently to bridge the different levels of non-carpeted and carpeted floors) The gently curved mouldings are designed with wheelchair users in mind, enabling them to pass over a door threshold or from carpeted areas to non-carpeted area with ease.
