

Product Number: 120

Weather Board

Description:

A PVC sealing strip containing either brush seal, angled rubber seal, or straight rubber twin-blade seal. The strip is applied to the bottom edge of doors and used in conjunction with Envirograf® Products 106 and 107 Threshold Seals for a complete solution to threshold draught and weather sealing. Available in black, brown, or grey and 1050mm or 2100mm lengths. See also Envirograf® Product 119.
