

Product Number: 155 Door and Cupboard Vent Grilles

Description:

Innovative door and cupboard vent by Envirograf®. This product assists in areas of airborne moisture, such as bathrooms, cupboards, kitchens, toilets etc. it offers up to one hour of fire protection to the penetration. Available in white or brown finish in standard sizes.

Use:

A simple yet effective ventilation system which provides a solution to poorly ventilated areas which rely on a single extractor fan due to not having a window present. This new vent can be utilised in various areas with high levels of steam and condensation such as hotel bathrooms, kitchen and utility rooms with washing machines and tumble dryers. More recently to comply with building regulations these vents can be inserted into under stair or service cupboards which house gas meters.

Material specifications:

- Zintec steel plate (powder coated in white or brown as standard)
- Intumescent material
