Fire & Smoke Drop Curtain

Description:

Envirograf® Fire & Smoke Drop Curtains are designed to suit each individuals needs. We offer two designs
-   New style for smaller openings (450mm – 1800mm)
-   Traditional for larger openings (1800mm – 3800mm)
Both of these styles provide an automatic alarm or detector activated system.

The product provides the customer with a fire and smoke barrier which when tested gives up to 80 minutes fire protection (BS476 Pt22 1987).

The drop curtains are made to order meeting all size requirements in either surface mounted or recess mounted. The curtain has been designed so that there are no fibres so is ideal for sterile areas.

The Curtain comes with a one year guarantee with the option of a service maintenance contract.
