FIRE PIT SET UP

01 Check contents and separate for set up.

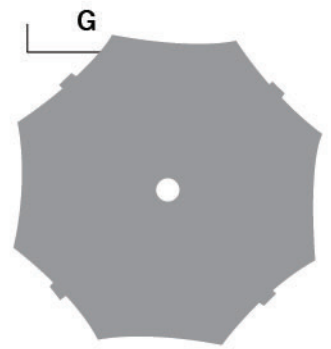

INCLUDES:

BBQ RAILS

BASE PLATE

LOCKING BASE PLATE

1 X START PANEL

6 X MIDDLE PANELS

1 X END PANEL

RETAINING PIN

1 X CARRY BAG

02 Find panel "A", there is an arrow on the bottom of the panel. Following the arrow direction, connect panel "A" with first middle panel "B".

FIRE PIT SET UP

03

Go through in a anti clockwise position connecting all middle panels.

04

Connect last panel "C" and go around checking if all panels are propriely connected and aligned at same level.

05

Find a litle arrow on the locking base plate "G" and by holding it with your fingers, connect arrow with arrow (the arrow in the locking base plate "G" and the arrow at the bottom of your first panel "A").

FIRE PIT SET UP

> 06

Holding the bottom of start panel "A", go through connecting the base to all panels.

> 07

Connect start panel "A" to end panel "C".

> 08

Hold the retaining pin "D" on the little tab at the top and slide down to lock it all in place.

> 09

This unit is mainly used as a Fire Pit, but you can easily use it for cooking by simply placing the BBQ rails "H" in place and add your favourite pot, pan or grill plate.
