LOOK BOOK
SS'19

Our swimwear is sustainable and eco-friendly,
using recycled fabrics in the highest quality
materials loomed in Italy.

Each item is designed using a limited-edition print
making, each one exclusive, timeless and unique.

Our products also offer a UPF 50 rating ensuring
sun safety at all times.

Our range allows you to mix and match ensembles to suit your
style and mood, with lots of possibilities. The ability to wear
the pieces in reverse, allows you to match back to other items
within our range from kids through to adults.

SUSTAINABILITY PERSPECTIVE

LIFE CYCLE BUY CONSCIOUSLY USE CONSCIOUSLY

Nowadays, many consumers are concerned about the environmental impact of their everyday lives; and are increasingly starting to act accordingly.

Taking shorter showers, recycling waste, using reusable bags, or even trying to not purchase anything that has plastic.

Environmental consciousness does not stop here. When customers buy products, like clothes or fabrics, they are concerned with the ecological footprints a product makes in all its life stages.

Customers don't consider only price, brand, personal needs, style and taste but also the life cycle of the garments and the environmental consequences of the item they are buying.
(It's production usage and disposal)

RECYCLED VITA XTRA LIFE LYCRA® 2019/20

Advanced recycled Carvico techno fabric made with ECONYL is 100% regenerated Nylon fiber from pre and post, consumer waste such as fishnets, and other end of life nylon materials.

With the latest yarn and knitting technologies, this fabric is 20% flatter than your basic Matt Nylon Xtra life LYCRA®, and still retains the same classic power and coverage.

FEATURES & BENEFITS
