IIMAK is Your Source for Inkjet Fluids

IIMAK is your single source for replacement inkjet fluids and support for primary marking and secondary case coding. With over 30 year of experience in ink development, manufacturing, and distribution, IIMAK offers a broad range of high quality OEM-equivalent inkjet inks. Our compatible inks deliver reliable performance in major systems including Videojet®/Marsh®, Domino®, Linx®, Markem-Imaje®, Diagraph®, FoxJet®, Hitachi®, Loveshaw®, Willett® and others.

- Significant cost savings on a wide array of OEM-equivalent inkjet fluids.
- Fully compatible formulations, no flushing, filter change, or recalibration is required.
- Developed and manufactured in the USA.
- On-site service available from our network of factory-trained personnel.
- Fast shipping with most popular items in stock.
- Custom ink manufacturing capabilities. Give us a difficult application problem and we will come up with a unique formulation to solve it.

OEM compatible CIJ inks for Domino, Videojet, Linx, and more.

Save on Reliable Replacement Inkjet Fluids

Continuous Inkjet

IIMAK small character continuous inkjet fluids are precision manufactured for OEM compatibility to assure the utmost reliability. Ideal for primary coding applications, IIMAK CIJ inks, make-up, and cleaners are drop-in replacements, requiring no flushing, filter change, or recalibration. A stringent filtration process delivers product filtration of 0.45µ absolute which meets or exceeds OEM standards. Choose from a variety of solvent fluids for quality imprints with high speed capability and excellent adhesion to a wide range of surfaces including metal, glass, PVC, plastics, and paper.

Drop-in products for Trident and Xaar based printing systems.

High Resolution

IIMAK's replacement inks for first and second generation Trident® and Xaar® based printing systems meet or exceed the OEM specifications. Inks are easy to use with no flushing or purging of the system. Exacting filtration standards deliver reliable print accuracy, high quality alphanumeric codes, scannable bar codes, and graphics for case coding.

Drop-On-Demand

IIMAK manufactures a broad range of cost competitive, high quality large character inks for valvejet-type printing systems. DOD inks include porous water-based inks as well as non-porous inks including MEK, Ethanol, N-Propanol, and Ethyl Acetate in a variety of colors.

Pour-over large character inks for secondary case coding.

IIMAK is Your Source for Inkjet Fluids

With compatible products and exceptional service, you can count on IIMAK for CIJ, high resolution and DOD replacement inkjet fluids and printer parts with significant savings over the OEM. Since 1983, IIMAK remains committed to printing, imaging, and marking consumable products with 1,000 employees worldwide.

IIMAK inks are formulated and manufactured in our Amherst, New York plant, utilizing high quality raw materials, strict production control plans and the highest level of filtration. IIMAK serves global needs for inkjet inks and other products including thermal transfer ribbons and direct thermal films with additional manufacturing, distribution, and sales operations in Belgium, Brazil, and Mexico.

Inks

IIMAK is your single source for inkjet replacement fluids in the packaging industry.

Savings

Risk-free OEM equivalent inks offer significant savings.

First In Service

We're committed to providing world-class service, support, on-time delivery, and flexibility.

Made In USA

For over 30 years, we've developed and manufactured inks in our Amherst, NY headquarters.

Guarantee

Your satisfaction is our #1 priority. We continually strive to be the industry leader in customer satisfaction.

Quality

Our inks are produced with the highest quality standards to ensure OEM compatibility.
