

# PALM HEIGHTS.

## A SENSE OF STYLE.

We are not trend led or fast paced; instead we offer comfortable and relatable pieces that have their own little stories to tell. Using classic elements that will stand the test of time, it's our individual details that make us totally unique. Our pendants can be hand engraved to capture special and personal details for our unique clients.

## ABOUT.

Based in a beautiful studio in Devon, our designs fuse exotic detail with intrinsically British roots.

Our collections are inspired by nature, exotic flowers, botanical silhouettes, with notes from past eras; estate heirlooms, plantation houses and lithographs. A vintage style that captures, endless summers and a sun bleached colour palette, translates into beautiful hand engraved pieces.

We continually evolve each season, marching to our own beat, embracing slow fashion and craftsmanship. We are proud to be a British brand, using skilled craftsmen within the UK to produce all of our fine gold and silver jewellery collections.
