

Hopscotch

BALLOON GARLAND KIT

STEP BY STEP INSTRUCTIONS

STEP 1:

Cut your balloon decorating strip to the required length (remember to leave a little extra on the ends for hanging).

STEP 2:

Inflate and tie your balloons using a hand pump. Helium is not required. Set aside the mini balloons, these are not needed until the end.

STEP 3:

Once inflated, pinch the lip of each balloon together and pull the knot through the hole in the strip.

STEP 4:

Attach balloons to both sides of the strip to create an even cluster.

STEP 5:

When you have attached all balloons, use the glue dots provided to stick the mini balloons into the gaps.

STEP 6:

To hang attach each end to party hooks using string. These are available to purchase on our website.

We LOVE seeing your balloon garlands! **POST & TAG!**  @hopscotch_parties #partywithhopscotch
