
La Crosse®

8 Inch Galvanized Metal Thermometer

La Crosse®

Model: 104-2822
DC: 102119

Mounting Location Outdoors

For accurate temperature measurements:

- Choose a location that is not subject to direct weather elements.
- Place on the North side of a building or in a different shady location.
- Direct sunlight will cause your thermometer to read high.
- Hang on the wall from a nail, peg or hook with the built in key hole.

Optional Calibration

- Factory Calibration is the recommended setting.
- Place your thermometer indoors next to another thermometer for 3 hours to check accuracy.
- If adjustment is needed, turn the coil on the back of the thermometer to calibrate.
