### How long will the battery last?

• A good AA alkaline battery will last over 12 months.

### How do I set the time?

• Spin the wheel on the back of the movement to set the time.

#### Will this clock provide time around the world?

• The time is set manually. Your clock may be set for any time around the world.

#### Power Requirements

• 1 AA Alkaline battery for your clock

## Why do the hands spin?

- Hands may spin if the battery is underpowered or over powered.
- Use only an alkaline battery in your clock.

## Where can I mount this clock?

- Mount your clock on a wall with the hanger on the back of your clock.
- Or place on a desk or table.
