

Wall Clock with Temperature and Humidity

Features:

1. Accurate quartz movement
2. Fracture resistant lens
3. Metal hands
4. Temperature/humidity
5. Requires one (1) "AA" battery (not included)

Setup

1. Insert 1 fresh AA, LR6 1.5 volt ALKALINE battery according to the polarity markings. The battery is a snug fit.
2. Rotate the Time Set Wheel to set the time.
3. Mount on the wall and enjoy!

Note: The quartz movement will keep the clock running accurately. If the clock does not operate, or steadily loses time, replace the battery.

Frequently Asked Questions

Q. Can the temperature/humidity be adjusted?

A. Temperature and Humidity will self-adjust. They cannot be calibrated.

Q. How long will the battery last?

A. A good AA alkaline battery will last over 12 months.

Q. Will this clock provide times around the world?

A. The time is set manually. The clock may be set for any time around the world.

Q. Why do the hands spin?

A. Hands may spin if the battery is under powered or over powered. Use only Alkaline batteries in the clock.

Limited Warranty

This product is warranted to be free from defects in material and workmanship under normal use and service for a period of 2 years from the date of sale to the customer. Warranty will not apply to defects resulting from abuse, accidents, or misuse. If a defect that is covered by this warranty arises during the warranty period, promptly return the clock (postage prepaid) with proof of purchase showing the date the clock was purchased to the following address and such defects will be repaired, or the products will be replaced at La Crosse Clock Company option without charge.
