### How long will the battery last?

- A good AA alkaline battery will last 8-10 months.

### What type of movement is this?

- This clock has a Silent Sweep movement. This means the second hand moves smoothly around the clock.

### Will this clock provide time around the world?

- The time is set manually. The clock may be set for any time around the world.

### Power Requirements

- 1 AA Alkaline battery for the clock

### Why do the hands spin?

- Hands may spin if the battery is underpowered or overpowered.
- Use only Alkaline batteries in the clock.

### How do I set the time?

- Spin the wheel on the back of the movement to set the time.

### Where can I place this clock?

- You can wall mount your clock using the hanging hole on the back.
