## 15.75-Inch River Run Indoor/Outdoor Wall Clock

Model: 433-3841S  
DC: 081523

## REMOVE COVER FROM MOVEMENT

1. Open: Pull up on the square cover to access the battery compartment.
2. Close: Replace the cover over the movement and press down.

## POWER UP

1. Insert 1 fresh AA alkaline battery, according to polarity, into the Battery Compartment.
2. Rotate the Time Set Wheel to set the time.
3. Mount on a wall and enjoy!

Learn more from our video: [bit.ly/wallclock\\_setup](https://bit.ly/wallclock_setup)

**Note:** The quartz movement will keep the clock running accurately. If the clock does not operate, or steadily loses time, replace the battery.

## MOUNTING

1. Be sure the Cover is in the closed position.
2. Use the top Hanger Hole to mount the clock.

## SPECIFICATIONS

**Battery Requirements:** 1 AA (IEC, LR6, 1.5V) required in the Battery Compartment (Alkaline recommended)

**Battery Life:** 12 months

## CARE & MAINTENANCE

When batteries of different brand or type are used together, or new and old batteries are used together, some batteries may be over-discharged due to a difference of voltage or capacity. This can result in venting, leakage, and rupture and may cause personal injury.

- Always purchase the correct size and grade of battery most suitable for the intended use.
- Always replace the whole set of batteries at one time, taking care not to mix old and new ones, or batteries of different types.
- Clean the battery contacts and also those of the device prior to battery installation.
- Ensure the batteries are installed correctly with regard to polarity (+ and -).
- Remove batteries from product during periods of non-use. Battery leakage can cause corrosion and damage to this product.
- Remove used batteries promptly.
- For recycling and disposal of batteries, and to protect the environment, please check the internet or your local phone directory for local recycling centers and/or follow local government regulations.
