### How long will the battery last?

- ✓ A good AA alkaline battery will last over 12 months.

### Will this clock provide time around the world?

- ✓ The time is set manually. The clock may be set for any time around the world.

### Power Requirements

- ✓ 4 AA Alkaline batteries, One for the time and three for the lighted hands.

### Why do the hands spin?

- ✓ Hands may spin if the battery is underpowered or over powered.
- ✓ Use only Alkaline batteries in the clock.

### How do I set the time?

- ✓ Spin the wheel on the back of the movement to set the time.

### How do the Lighted Hands work?

- ✓ There is a light sensor between the number 4 and 5.
- ✓ Light sensor activates efficient green LEDs to illuminate minute and hour hands in darkness
- ✓ Be sure you have three fresh alkaline batteries in the clock for the lighted hands.
