

16" Atomic Wall Clock

Model: WT-3161BK
DC: 011817

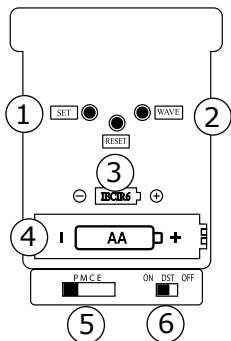

For information about WWVB, atomic time signal visit:
<http://bit.ly/AtomicTime>

Power up

1. Select Time Zone and DST ON or OFF.
2. Insert 1 AA battery into the movement.
3. For best reception, place clock on a wall that faces Ft. Collins, Colorado.
4. During the night, your clock will set itself.

IMPORTANT:

- Hands will move to 12:00 and search for the atomic time signal.
- If no signal, after 8-10 minutes, clock will run from 12:00 am.
- Clock will continue to search for the WWVB atomic time signal.
- Allow up to 5 nights for the clock to receive the atomic time signal.

- ① SET
- ② WAVE (Atomic search)
- ③ RESET
- ④ Battery
- ⑤ Time Zone Selector
- ⑥ DST Selector

Set the clock manually:

1. Hold **SET** for 3 seconds
2. Press and Hold **SET** to move hands quickly.
3. Press and release **SET** to move hands forward step by step.
4. The atomic time signal will override manual settings.

Reset:

If the clock does not respond to function modes, press the RESET button on the movement case.
