

3D SUGARED SWEATER NAIL ART DEMO

1. After you have refined filled your nail enhancements, using a nail wipe saturated with Cleanse, wipe down the nails. Apply Essential Base Coat and cure into the lamp, LED for 30 secs or UV for 2 minutes.
2. Using your Gel Brush, paint down a Gel Polish colour over the nail. Allow to level and cure in the Lamp, LED for 60 secs or UV for 2 minutes. Repeat if more opaque color is desired.
3. Using your **HD Detailer Brush**, use the same Gel Polish Colour, paint down a thin line down the nail. If you paint the line more to the left or right rather than center you can give it a more realist sweater texture.
4. Pour, sprinkle or sugar **Attraction Crystal Clear** over the uncured painted line. Tap the excess powder off and cure in the **Dual Cure Lamp**, LED for 60 secs or UV for 2 minutes.
5. Now you will begin creating the sweater pattern using the same Gel Polish Colour, Paint 2 dashed lines parallel to each other. For each space between the dashes, join the left line diagonally down to meet the right line below. Repeat for all dashes. Do not cure.
6. Pour, sprinkle or sugar **Attraction Crystal Clear** over the uncured pattern. Tap the excess powder off and cure in the **Dual Cure Lamp**, LED for 60 secs or UV for 2 minutes.
7. Repeat the same pattern in a mirror image on the other side of the nail. Pour, sprinkle or sugar **Attraction Crystal Clear** over the over the uncured pattern. Tap the excess powder off and cure in the **Dual Cure Lamp**, LED for 60 secs or UV for 2 minutes.
8. In the remaining section of the nail not covered in the pattern, use the same Gel Polish Colour to paint a wide open V shape. Pour, sprinkle or sugar **Attraction Crystal Clear** over the uncured Pattern. When ready, tap the excess powder off and cure in the **Dual Cure Lamp**, LED for 60 secs or UV for 2 minutes.
9. Once cured, there is no need to top coat the nail. Gently dust the excess powder off with your **Plush Brush**, and your design is complete.
