

ACRYLIC AIR DRY DIPPING SYSTEM ~ STEP BY STEP

1 **MUST DO STEP :**
PREP the nail.
Then, apply PRIMER

2 Apply BASE COAT

3 DIP in CLEAR Acrylic Powder

4 Brush off excess powder

5 Apply BASE COAT again

6 DIP in your favorite Acrylic Powder.
REPEAT steps 5 & 6

7 Apply BASE COAT

8 DIP in CLEAR Acrylic Powder

9 Brush off excess powder

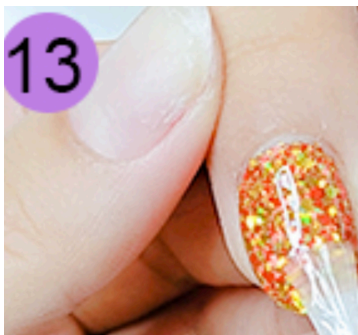

10 Apply ACTIVATOR
let it dry and set hard

11 Refine the nail by filing it to get a smooth surface.
Brush off dust

12 Apply the ACTIVATOR again

13 Apply TOP COAT & let it dry hard

14 Re-Apply TOP COAT.

💡 **TIP:** Keep you Brush-On-Caps & bottles cleaned
=> Always clean the brush-on-cap on a nail wipe before putting it back into your bottles.

💡 **TIP:** Always use a soft dusting brush to remove the excess of powder off the nails, before following onto the next step.

📌 **Products should never touch the skin & must finish away from the skin.**

Nail Products are made to be applied ONLY on the NAIL's surface ~ NOT on the cuticle, NOT on the sidewalls! 🖐️
