

ACRYLIC AIR DRY DIPPING SYSTEM ~ STEP BY STEP

1

✂ Proper Nail Preparation first.
Then, Apply PRIMER

2

Apply BASE COAT

3

DIP nail
into your favorite Acrylic powder

4

Brush off the excess powder

5

Apply BASE COAT again

6

DIP nail
into your favorite Acrylic powder

7

Brush off the excess powder

8

Apply ACTIVATOR & let it dry & set hard.
Refine the nail by filing it to get a smooth surface.
Brush off dust & Re-apply ACTIVATOR again.

9

Apply TOP COAT
& let it dry hard.
Re-Apply TOP COAT.

✂ Products should never touch the skin & must finish away from the skin. Nail Products are made to be applied ONLY on the NAIL's surface. ✂
