

NATURAL NAIL ~ FRENCH GEL OVERLAY

1. Prep the natural nail. Apply a tip or nail form if an extension is desired.
2. Apply **Essential Base Coat** as a base and cure in the **Dual Cure Lamp**, LED for 30 seconds or UV for 2 minutes.
3. Starting in Zone 3, apply a coat of **Balance Gel In A Bottle Blush** evenly to the entire length of the nail. Cure in the **Dual Cure Lamp**, LED for 60 seconds or UV for 2 minutes.
4. Build additional layers if required for building the apex for strength and cure again.
5. Use Cleanse on a nail wipe and remove the tacky dispersion layer. Use a white gel or a white gel polish to create your smile line. Swipe round smile line to define. Cure into the nail lamp, LED for 60s or UV for 2mins.
6. Starting in Zone 3, apply **Balance Gel In a Bottle Clear** to encapsulate entire nail. Cure into the nail lamp, LED for 60s or UV for 2mins.
7. Ensure proper apex placement and add a small amount of gel to the upper arch if necessary, and cure again.
8. Coat the entire surface of the nail with a layer of **Essential Seal**. Cure in the **Dual Cure Lamp**, LED for 30 seconds or UV for 2 minutes.
9. Using a lint-free **Nail Wipe**, remove tacky layer with **Cleanse**. Apply **Nurture Oil** to cuticle area and massage.
