

SIMPLE BAROQUE NAIL DESIGN

using a Gel Polish Colour and Glaze'N Go

1. After applying a structured layer of product in Acrylic, Gel or Polydip, Apply a thin layer of **Polish Pro Color** of your choice to the nail enhancement. (We used Pintucked Pink.) Cure in the **Dual Cure Lamp** on LED for 30 seconds or UV for 2 minutes. Apply a second layer of colour (for full coverage) and cure again.
2. Apply a layer of **Glaze 'n Go LED**, sealing and capping the edges. Cure in the **Dual Cure Lamp** for 30 seconds in LED, or for 2 minutes in UV. There is no tacky layer to remove.
3. In a dish or on a nail form, mix together your favorite Gel Polish Colour with Glaze'N Go LED until a milky consistency.
4. Using your **HD Detailing Brush**, paint medium sized comma like swirls onto the nail. Cure in the **Dual Cure Lamp** for 60 seconds in LED, or for 2 minutes in UV.
5. Use your **HD Detailing Brush** to outline the swirls using your favorite Gel Polish Colour pure* for the contours of the design. Cure in the LED Lamp for 60 seconds, or for 2mns in UV.
6. Finish off the design by adding some small comma swirls to the nail. *You can also use a 3D Gel for your designs. Add a layer of Glaze'N Go if needed and cure into the lamp to finish.
7. Condition the cuticle and surrounding skin with Nurture Oil.
