

# ALL-NEW!

## **ELB300** EV BATTERY PACK CELL EQUALIZER

The ELB300 is designed for new energy batteries such as lithium iron phosphate, ternary lithium and lithium manganate, and can quickly solve the cruising range degradation caused by the difference in cell capacity due to inconsistent cell voltages.

- Equalizing Maintenance Test Mode
- Multiple Discharge Auto-Stop Conditions
- Support Intelligent Equalizing Function
- Portable, Easy to Carry and Transport

## **ELT500** EV BATTERY PACK AIR TIGHTNESS TESTER

The ELT500 EV Battery Pack Airtightness Tester is a compression testing equipment that is used to test the air compression rate and to maintain pressure in the inner cavity/surface of the battery/product.

- 7-inch LCD Touch Screen
- High-sensitivity Pressure Sensing
- Real-time display of Pressure Dial and the Process Pressure Curve

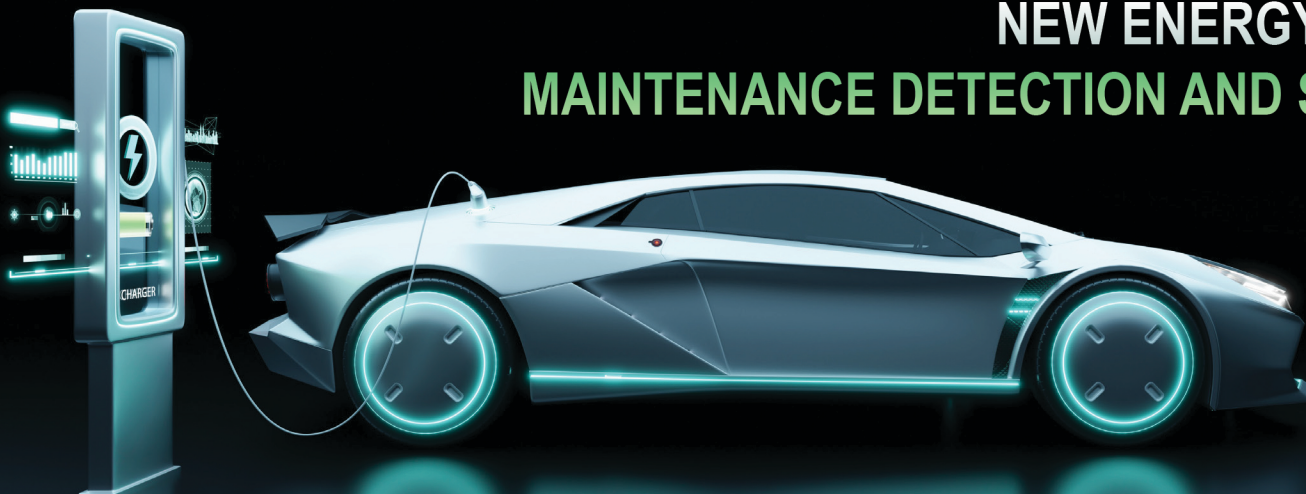

## **ELP400** EV BATTERY PACK MODULE CHARGING & DISCHARGING DEVICE

ELP400 has built-in various test and maintenance modes, which are suitable for the discharge, charging, cycle charging and discharging tests of various lithium batteries on the market. Adopting an intelligent operating system and supports wireless data transmission, it helps to maintain and manage the battery pack, thus extending its service life.

- Portable and Versatile
- Supports Multiple Protection Measures
- Ability to Test all Lithium Battery Packs
- Adopts Wave Width Modulation Technology

## **NEW ENERGY VEHICLE MAINTENANCE DETECTION AND SOLUTION**

# ALL-NEW!

## ELA320 INTELLIGENT DIGITAL POWER SUPPLY

The ELA320 is an intelligent digital power supply for the maintenance of new energy and fuel vehicles. It has stable current output, excellent performance indicators, and a variety of protection mechanisms. It is a digital power supply with high reliability and high efficiency, which is safe and easy to use.

- Supports Protection Alarm for Faults
- Built-in Cooling Fan
- The high-voltage and low-voltage modules can be monitored separately

## ES200 INSULATION RESISTANCE TESTER

Insulation resistance meters are commonly known as megohm meters, or shake meters, high resistance meters, insulation resistance testers, etc. It is reflected by insulation resistance. Using an insulation tester for measurement can effectively protect the safety of maintenance person.

- Capable of Measuring Insulation and Resistance
- Three Measurement Modes
- Comparison Measurement Mode

## EV & BATTERY PACK DIAGNOSIS ADD-ON KIT

New Energy Battery Pack Diagnostic Upgrade Kit comes with battery pack testing cables for various vehicle brands. The battery pack diagnostic software and some diagnostic software for new energy vehicles can be activated and downloaded with the included activation card.

- Supports Battery Pack Diagnostic Methods
- Quick Reading for Battery Pack Information
- Battery Pack Data Streaming
- Print or Share Diagnostic Report
