

Phoenix Max

Get Maximum Performance and Superior Diagnostics

The Phoenix Max is TOPDON's newest cutting-edge automotive diagnostic scanner. With a 13.3" screen, this all-in-one tool offers a wide array of functionalities that will expand any technician's capacity to complete even more jobs. The Phoenix Max includes a 4-channel oscilloscope, ADAS compatibility, and topology mapping that shows all car systems in one view. Its updated MDCI (Modular Diagnostics & Communication Interface) includes the latest protocols, allowing professionals to perform more complex repairs on various automotive and heavy-duty vehicles with optional add-on software.

Features

- Includes a 4-channel Oscilloscope
- Cloud-Based Programming and Online Coding
- Access the FCA Gateway to Work on the Most Modern Vehicles and Adjust Protected Functions
- Supports ADAS Calibration and Battery Testing, and HD Diagnostics with an Additional Purchase
- Features Topology Mapping
- MDCI Pro equipped with J2534, CanFD, DoIP, D-PDU, and RP1210 Protocols
- Heavy-Duty Cable Add-On
