

# TWC-521 Tire Changer

TWC-521

**LAUNCH**

**TWC-521** provides high performance servicing and a long service life as it helps technicians dismount and mount tires rapidly. It is suitable for various types of tires, like run-flat and low-profile types.

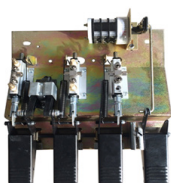

## Features

- | Right auxiliary arm assist 5A (optional)
- | Tilt swing arms are free to move
- | Updated horizontal column with a fully mechanical design
- | Bead breaker cylinder with tower spring
- | Self-centering working table
- | Improved new design
- | Working table size: 9 - 24"
- | Working pressure: 0.8 - 1MPa
- | Max. Wheel Diameter: 1050mm
- | Packing size: 1150 x 950 x 980mm
- | Input voltage options: 220V/230V/380V/400V

## Specifications

- | Input Voltage Options: 380 V
- | Working Pressure: 0.8-1 MPa
- | Inner clamping range: 12-24"
- | Outer clamping range: 10-22"
- | Wheel Width: 4-13"
- | Working Table Size: 9-24"
- | Max. Wheel Diameter: 1050 mm
- | Bead breaker force: 2500 kg
- | Mounting speeds: 6-13 U/min
- | Compressed air connection: 8-10 Bar
- | Noise level: 70 dB (A)

Metal pedal system is more stable and stronger

Single way bead breaking cylinder save 30 % air and electric energy

Turntable Cylinder 360 kg maximum clamping power

The air guider inside adopt 3 level rubber ring, with better designed sealing system

Inside gear system using the rare oil to protect the whole system and to avoid infuse the oil frequently

Bead breaking system (6 mm plastic protector) With new structure better for big size tire
