

360° MOTION Radial Pole Sander

Large Surface Area
230mm Diameter allows faster sanding

360° Motion 'No Flip Joint'
Allows superior control, & the ability to change direction quickly without lifting off the surface - eliminates scratching

Cushioned Pad
Provides even sanding for optimum results and allows sanding up to corners and edges without damage

Threaded Adaptor
Suits most threaded painters poles

Ultra-Lightweight
Easy to use and reduces fatigue while still being robust

Hook & Loop System
Allows for fast & easy replacement of sandpaper discs

Faster & Improved Sanding!

Use iQuip Replacement discs for best results available in grits : 80, 120, 150, 180, & 220
