

Advice STS 19" Static transfer switch

Features:

- Uninterruptible transfer between the independent sources
- Synchron / Asynchron transfer feature
- "In flight" transfer mode
- Source priority selection
- Automatic and Manual transfer
- Module replacement without interruption under load
- Fast Diagnostic Response with microprocessor controller
- Internal (2 pcs) Manual By-pass
- Easy Maintenance Availability
- Current Distortion level less than % 1
- High Efficiency

Specifications

Model	AD-STS
Nominal Voltage	220V AC (Monophase)
Current Rating	50A
Protection Class	IP 20
Cable Entry	Rear
Air Entry / Exit	Bottom/Top
Max/ Audible Noise	45 [dBA](from 1 m)
Nominal operation current	50A
Advised Cable Cross-section	10mm ²
Environmental Conditions	Max Altitude = 2000m above sea level %0-90 relative humidity
Operating Temperature	0 C° to+ 40C°
Height	2U
Width	19"
Depth	360mm
Weight	9kg
