

# CIRCLE OF LIFE PROGRAMME

Planning for Our Tomorrow

# PLANNING FOR OUR TOMORROW

*As an integral part of the design process, Workspace Furniture supports policies and practices to protect our environment, conserve natural resources and reduce waste.*

*Workspace Furniture is committed to helping safeguard all natural habitats and communities affected by their operations. We strive to make the most efficient and responsible use of renewable resources, including water, soil and forests.*

The **CIRCLE OF LIFE™** is a free program that involves the collection of furniture from the customer when they no longer have use for it. Items are collected and Workspace Furniture will either donate it to a recognized charitable organisation to extend its lifecycle; or re-manufacture it as a “near-new” product. This process helps to reduce demand on raw material and energy resources. When products are beyond salvage, they are dismantled; separated by material and sent to an approved recycler.

Choosing to build durable products that have a long-term performance and value also highlights Workspace Furniture's aim to place less demand on natural resources. The comprehensive Workspace Furniture's range is a well-proven selection of office furniture that is not only designed to hold its own within a wide range of stylish office interiors, but will also consistently excel amongst the demands of a busy office - for many years after it is purchased.
