

Plymouth Heavy Duty

You'll feel the difference as soon as you sink into the comfort of any one of our task chairs. The task range is the fruit of years of experience, and they are all hand built right here in New Zealand.

FEATURES

- A big chair for larger bodies.
- Heavy duty 3 lever ergonomic mechanism. That's more adjustment for more comfort. Levers are 3 aside and close to the seat - ergonomics should be easy.
- 98mm molded high-density seat cushion. Like we said, this is serious comfort.
- Plush high back with specially molded high density foam for intense comfort. You've only got one back and we help you to look after it.
- Double plywood included in the seat for additional strength.
- Heavy duty alloy base for extra strength and stability.
- Large 60mm soft wheel castors. A big chair needs big wheels.
