*Reusable*  
COTTON ROUNDS

## THE SUSTAINABLE CHOICE

Made from soft organic cotton, our reusable cotton rounds are a wonderful zero waste and sustainable alternative to disposable cotton.

## ENTIRELY PLASTIC-FREE

From the fabric to the sewing threads, our rounds are entirely made of natural cotton. No polyester threads in sight.

## SOFT ON YOUR SKIN

Our reusable cotton rounds are soft, supple and suitable for the most sensitive skins. You can use it to cleanse your face without aggressing it. Our cotton has no chemicals, colouring nor additive. Nothing extra in it that your skin could react to.

# bareaya.

WHY DID WE CHOSE

## Organic Cotton

Cotton fabric is derived from the fibres surrounding the seeds of cotton plants, which emerge in a round, fluffy formation once the seeds are mature.

We chose organic cotton for several reasons:

- FOR THE EARTH: No chemicals sinking in the soil where the cotton is grown
- FOR THE PEOPLE: Better agriculture practices that doesn't harm people who cultivate our cotton
- FOR YOU: no chemical residues that could harm you skin

# bareaya.

## HOW TO *Use*

Use them the exact same way you would be using disposable cotton rounds.

Let your makeup remover sit and sink into the cotton round for a few seconds before you begin your routine.

### AFTER USE:

After use, rinse your cotton thoroughly with water and a little bit of soap and let your cotton dry flat.

OR

Wash your cotton in the washing machine with your white linen at 30°.

# bareaya.

## TIPS TO MAKE THEM

*Last*

- A quick rinse with warm water + soap will do the work. Use the washing machine only occasionally to reduce the wear and tear.
- When you wash your cotton rounds in a washing machine, make sure they're in a mesh bag to prevent fraying or losing rounds that can slip behind the tumbler.
- Wash only with white linen as colored linen will make the rounds become grey over time.
- Use a gentle detergent and avoid bleach or harsh stain removers.
- We do not recommend drying your reusable cotton rounds in the tumble dryer.
- Do not use your cotton rounds to remove nail polish or you may have to sacrifice one of them for this special use.

## HOW TO REMOVE STAINS

If over time, your rounds become stained or grey, you can use one of the following methods:

### MARSEILLE SOAP

Rub soap on the rounds and let it sit for a few days, even up to a week.

Then soak them in water for 15mn before washing them at 60°C.

Repeat if necessary

### SODIUM BICARBONATE

Mix 1 liter of warm water with 3 table spoons of sodium bicarbonate and 200ml of white vinegar. Soak your rounds in this mix overnight.

Wash at 60°C. Repeat if necessary
