*first time site use only

MPX Reformer Features:

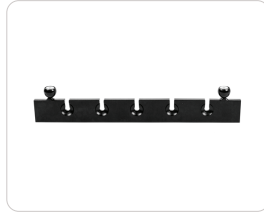

Vertical Stand

Stores upright and perfect for your small studio, gym or fitness facility with a multi-use room or where space is at a premium.

Traditional Springs

Equipped with the Traditional Springs Package to provide enhanced fluidity of movement and meet the demands of high-intensity use.

Traditional Gearbar

With five concave slots for easy spring loading, it slots into three different positions to adjust tension easily.

Traditional Rope System

Our Traditional Rope System is designed to be preset to a standard length so users won't need to make regular adjustments during the workout.

Carriage

The 22 in (55.9 cm) wide carriage glides smoothly along the Reformer's rails and provides you with comfort and support. High quality EVA foam padding on the carriage offers superior tactile feedback during a workout.

*accessories sold separately

The MPX includes a Vertical Stand to store Reformer upright for space-saving convenience - perfect for smaller studios or facilities with multi-purpose exercise rooms to maximize earning potential.

Equipped with

- 5 Reformer springs - 4 x 100% + 1 x 50% tension
- Soft Reformer loops & ropes
- 3 gearbar positions
- 6 carriage stopping positions
- 3 headrest positions
- 4 footbar positions
- Vertical stand
- Front end easy-roll wheels

Dimensions
