## **FRONT SPLITTER FOR HYUNDAI i30N**

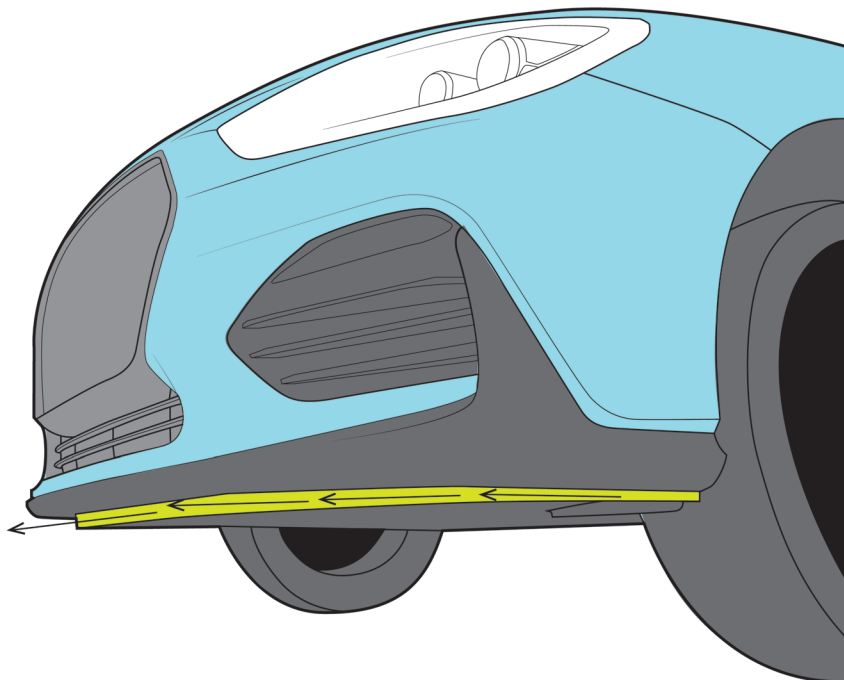

INSTALLATION MANUAL  
ADDITIONAL NOTES

# FRONT SPLITTER (2ND SHEET) FOR HYUNDAI i30N

①

## IMPORTANT NOTE

Please note, before installing the front splitter, remove the OEM lip which is marked in the picture. Before you can remove the OEM lip you have to dismantle the undertray. You can now remove the plastic screws of the OEM lip, which you can find two times on the left and two times on the right. The OEM lip can now be unclipped in driving direction. You can now start installing the front splitter as described in our installation manual.
