Product Overview

NOTE

- Please only use the AC adaptor provided.
- Remove the adaptor when the winder is not in use.
- Always turn off the power when inserting or removing watches.
- Do not shake or rotate when the winder is stationary.
- When inserting and removing your watch, please ensure the electrical supply is turned off as it may cause the winder to malfunction.
- Please dispose of this product responsibly at an approved disposal site or recycling facility. Do not dispose of this item in normal household waste.

Biometric Instructions

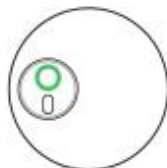

NOTE

Please register to continue using the Lockbox, before the first use or after deleting a fingerprint. Otherwise anyone's fingerprint can open the Lockbox.

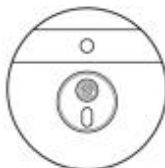

1. Register New User

Click the SET button

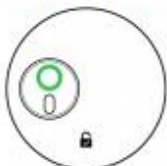

Green light will stay on for 5 seconds

Within 5 seconds, place your finger on the sensor 5 times. The green light should flicker indicating the registration was successful

2. Unlock the winder

Next, press the sensor, if the green light flashes twice then registration has been successful

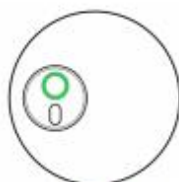

If a red light flashed, the registration failed and you should try again

3. Reset and delete fingerprint

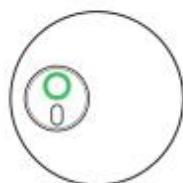

To reset and delete fingerprints, press and hold the SET button for 3 seconds or more

If the green light flashes 3 times then all fingerprints have been deleted

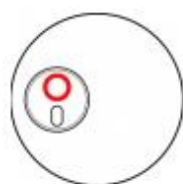

4. Fingerprint capacity

Your winder can store a maximum of 5 fingerprints

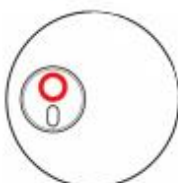

5. Low battery warning

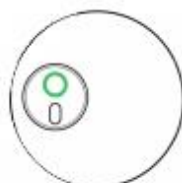

When you touch the sensor, if the red light flashes 3 times then the battery is running low

6. Charge indicator

While charging, the red indicator light will flash quickly.

Once the green indicator light becomes solid, the charging is complete. Please charge the battery fully before first use.
