

# Center Latch with Handle Replacement Instructions

(#51)

**What's Included:**  
Center Latch, Center Handle Piece,  
6 screws (extras included)

**Tools Needed:**  
Phillips head screwdriver

1. Remove the three screws from the top Center Handle piece and discard. (Figure 1)
2. Lift up the hasp to access 3 additional screws. Remove the three screws from the bottom Center Handle piece and discard. (Figure 2)
3. IF NECESSARY, remove the four screws from the bottom Center Latch Piece on the base of the trunk. Replace with the new piece and reattach with 4 replacement screws. (Figure 3)
4. Place the new Center Latch and Center Handle pieces in place and screw back on your trunk in their original positions using the replacement screws provided.
