

Trim Bracket

Replacement Instructions

(#16, 18, 20, 22, 42, 44, 46, 48)

What's Included:
Trim Bracket, 2 screws (extras included)

Tools Needed:
Phillips head screwdriver

1. Remove the two screws from the Trim Bracket that is currently on your footlocker. Discard.
2. Position the replacement Trim Bracket in the same position as the piece you just removed. Screw in each of the new screws.
