Placing Orders: Orders may be placed via fax or e-mail at any time. Phone orders are accepted during Pine's regular business hours (8 a.m. to 6 p.m. local time). Pine also offers emergency, after-hours service based upon a customer's needs.

Rental Term: For equipment shipped via priority or early morning overnight service, or local deliveries and customer pick-ups requested to be scheduled for receipt by the customer before 12:00 p.m., the rental term begins immediately. For equipment shipped via express service, or local deliveries and customer pick-ups requested to be scheduled for receipt by the customer after 12:00 p.m., the rental term begins the next business day.

A daily rental rate is the 24-hour period after the rental term begins. A weekly rental rate is the seven consecutive calendar day period after the rental term begins. A monthly rental rate is the twenty-eight consecutive calendar day period after the rental term begins. The lowest rental rate is automatically applied based on how long the equipment is on rent.

Rental Termination:

- A. For equipment shipped back to a Pine office, the rental term ends the business day before the equipment is shipped back in good condition; A.M. and Saturday deliveries are not required. For customer drop-offs or equipment called off rent and ready for local pick-up before 12:00 p.m., the rental term ends the previous business day; otherwise the rental term will end on the day the call or e-mail is received.
- B. To end the rental term when using Pine's complimentary pick-up service, a customer must call or send an e-mail to the respective Pine Environmental office and advise of the exact pick-up location of the equipment. If Pine receives the call or e-mail before 12 noon, the rental term will end the previous day; otherwise the rental term will end on the day the call or e-mail is received.

Rental Cancellation: Any order confirmation canceled more than 24 hours in advance of the scheduled delivery/pick-up time will not be charged for the rental. Any cancellations less than 24 hours will be subject to a \$25-day cancellation charge and all applicable shipping fees. Orders cancelled after shipping or delivery will be subject to a full day rental charge.

Shipping Methods: Unless otherwise specified, Pine ships rental equipment by Purolator Express. Freight is prepaid and is added to a customer's invoice. Alternatively, customer may provide a Purolator or UPS account number when placing the order. Canada Post may not be used for shipping equipment. All orders are shipped FOB origin, and customers are responsible for all delivery and return shipping costs. Customers must return rental equipment by express service or will be billed additional rental charges for transit time. Pine offers equipment deliveries and/or pick-ups via courier service, within the vicinity of a Pine office for customers. Contact the local office for more details and the cost associated with a Pine pick-up.

Equipment Condition: When delivered to a customer, Pine rental equipment meets the manufacturer's operating specifications. Upon receipt of equipment, the customer shall notify Pine within 24 hours in writing if the equipment is not operating properly, missing components, or is damaged in any way. No one, other than a Pine representative, may perform repairs on the equipment. A customer may recalibrate the equipment or may return it to Pine for recalibration.

Returns: Pine reserves the right to evaluate the returned items to determine if a credit can be issued to the customer. Some items may not be returned once the customer takes delivery. Consumable items that are returned sealed, unopened, and unused, will be subject to a 20% restocking fee. Consumable items that are specially ordered, opened, used, damaged, or cannot be resold, may not be returned for credit. For purchased instrumentation that is returned, Pine will charge a 20% restocking fee to the customer, unless defective. All returns and exchanges must be in original condition and include all accessories

Operation, Maintenance, and Repair: The customer shall supply trained operators for the equipment and shall insure that the equipment is operated properly and is not subjected to careless, rough or improper use. The customer shall be responsible for maintaining the equipment during the rental term, at their own expense, in the same condition as upon delivery, including all routine maintenance, all factory recommended maintenance (if applicable), and all repair of the equipment. The customer shall not alter or modify the equipment without the written permission of Pine.

Delivery, Redelivery and Risk of Loss: All risk of loss and/or damage to the equipment shall pass to customer upon delivery of the equipment by Pine and shall remain with customer until the equipment is redelivered to Pine at the redelivery location, regardless of how such loss or damage arises or occurs.
