

### Step 1

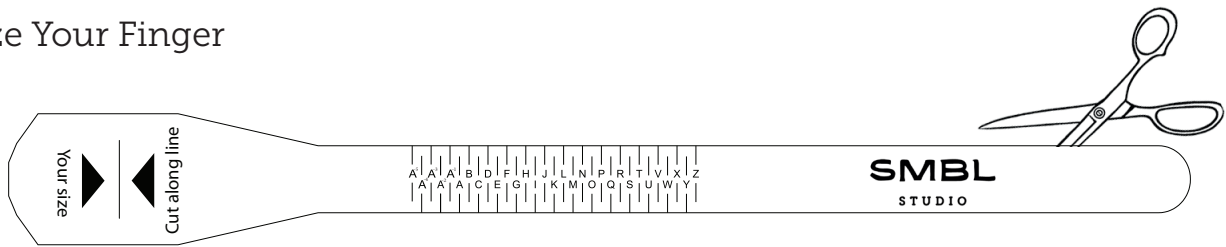

Print this page & ensure your printer is set to print the page at 100%

### Step 2

Check your print out is accurate by comparing the measurements on the right with a ruler. If all ok either 'Size Your Finger' or 'Size a Ring'

### To Size Your Finger

### Step 1

Cut around the finger gauge outline

### Step 2

Cut a slit where indicated between the two arrows on the left of the Finger Gauge Outline

\*measure the finger you want to wear the ring on (note: if you are sizing for a midi ring measure where you want the ring to sit (usually above the knuckle)

\*Complete this at the end of the day when your hands are warm

\*Ensure the paper can slide a little on your finger as the width of the actual ring will grip your finger more than paper

\*Alternatively if you would prefer to use a plastic finger gauge, we will send one to you upon request

### To Size Your Finger

Use a ring that fits the finger you wish to size

Place the ring on the circles until you find one where the black circle touches the inside of your ring all the way round
