3-bikes-in-1

---

With its sustainable design and manufacture, and innovative 3-bikes-in-1 feature, the Wishbone™ Bike designed in New Zealand really is the ultimate pre-bike.

And you've scored yourself a happy Sunday afternoon, a smiling kid, and a rider for life. Nice.

7.

Replace seat.

8.

Replace wheel.

# adjust the seat

---

1.

Loosen and remove capping nuts and bolts.

2.

Child's feet should be flat on the ground.

see, that was easy

## eco bike

Every Wishbone Bike is made from plantation-sourced woods and is glued and finished with non-toxic products. The Bike box and all paper inside is recycled and printed with non-toxic inks. The canvas bag for extra parts is made from certified organic cotton. Every component on this bike is fully recyclable.

## maintenance

Make regular inspections of all fastenings to make sure they are tight. Normal wear and tear may make them loosen.

We recommend you keep all tyres inflated to max 25 psi. Tube valves are car size – pump them up when you visit the gas station.

Clean with warm water and a soft cloth. Lubricate wheels lightly with a standard bike oil. Use a wood wax or polish to maintain the wooden components finish. Do not store your bike outdoors.

## WARNING!

**This product contains small parts that present a choking hazard. For safety reasons, this product is to be assembled by an adult.**

**We recommend that proper protective gear be worn while riding a Wishbone Bike.**

**This includes closed shoes, an approved safety helmet and adequate protective clothing such as long pants or elbow/knee pads. Never allow more than one rider at a time.**

**For your child's safety and the safety of others, use great caution at all times.**

**To reduce the risk of injury, adult supervision is required at all times. In particular, the rider should be coached in the use of his or her feet to brake and stop the bike.**

**Never use on public highways or in areas where motor vehicles are present or on sloping areas. Do not use near steps, driveways, roadways, bodies of water, or swimming pools.**

**Wishbone is not responsible for any injuries suffered while using Wishbone Bike. The purchaser assumes the risk of any activity they engage in with the Wishbone Bike.**

# warranty

---

We want you to feel confident in the quality of our products and customer service.

So we have warranted our products against manufacturing defects for one year from the date of purchase. Within this period, we will be pleased to repair any product or component that has a manufacturing defect or, if we think it is necessary, replace it, free of charge. Your first contact point for any warranty query is your store of purchase.

Our warranty extends to an original purchaser who bought new product from an authorized dealer of our products. Please have your proof of purchase ready. Any freight charge to deliver the product back to us or our representative is all you'll need to pay.

If you bought your bike second hand (well done!) or have modified it somehow, if you have not used or maintained it properly or if the problem is really just normal wear and tear, then you probably don't qualify for our free-of-charge-repair-or-replace warranty.

But you are welcome to contact us anyway. We'll do our best to help you. Again, contact your store of purchase first.

Please note that in some countries or states you may have more rights too.

THIS WARRANTY IS MADE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND THERE ARE NO OTHER WARRANTIES THAT EXTEND BEYOND THIS EXPRESS WARRANTY.

# certificate of ownership of wishbone bike
