Vacuum Insulated Stainless Steel Bottle

CARE & USAGE

CARE & USAGE

- Clean your bottle by hand with warm soapy water before first use. Avoid cleansers with bleach, chlorine or abrasives.
- Bottle and parts are not dishwasher safe. Hand wash with soft bottle brush and air dry with cap off to allow parts to dry thoroughly between uses.

The Zoku Stainless Steel Bottle is designed to keep your beverages piping-hot or icy-cold for hours at a time. From the easy grip, Rapid Lock™ cap to the polished, thread-free stainless steel mouthpiece, every detail is carefully considered, to keep you in style and well hydrated on-the-go.

- If filling with boiling liquid, allow liquid to cool down with the cap off for at least 4 minutes before attaching the cap.
- During usage, fill to slightly below internal threads.
- Not for use on a stove or in a microwave, oven, dishwasher or freezer.
- Although steel is durable, strong impacts or dropping can compromise the vacuum insulation, preventing it from retaining temperatures.

⚠ CAUTION

This bottle is designed to hold liquids that may be hot enough to seriously burn you, use caution while drinking hot beverages.

- Do not overfill; keep hot liquids out of reach of children.
- Do not freeze or use dry ice.

- Do not microwave, place in oven or heat on stovetop or fire.
- Do not keep dairy or fermented beverages for extended periods.
- Make sure the cap is tightened completely before transport.

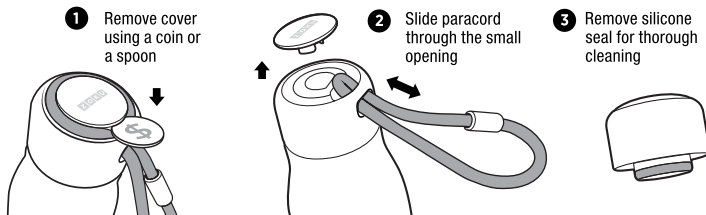

⚠ WARNING

- Small parts may be generated. Not for children under 3 years of age.

Cap Disassembly

The bottle cap disassembles for in depth cleaning.

⚠ **No Dishwasher.** Hand wash only. Dry thoroughly before reassembling. It is not necessary to disassemble the cap often to clean it.

Health, style and durability, perfectly balanced.

Designed to take a hit, the Zoku bottle is made from food-grade 304 18/8 stainless steel that's BPA and Phthalate free. Steel does not impart flavors and won't shatter or rust. With our double-walled vacuum insulated construction, beverages taste their best and retain their temperature longer.
